**SCHEDULE 111  
GREENHOUSE GAS EMISSIONS CAP AND INVEST ADJUSTMENT**

(N)

**APPLICABILITY:** This rate adjustment shall be applied to the rate(s) shown on each schedule for Gas Service for all Customers during a month when this schedule is effective, with the exception of those Customers identified in the Special Terms and Conditions section below.

**PURPOSE:** The purpose of this schedule is to implement a surcharge to recover the costs and to provide benefits through credits to certain Customers from the Company’s implementation of the Washington State Greenhouse Gas Emissions Cap and Invest Program as prescribed in Chapter 70A.65 Revised Code of Washington (“RCW”). Interest is also provided or charged based on the Company’s actual cost of debt, updated semi-annually.

**DEFINITIONS:**

**Covered Entity** means a Customer that is designated by the Washington State Department of Ecology (“Department of Ecology”) as subject to RCW 70A.65.060 through 70A.65.210 as noted in RCW 70A.65.010(23), that has completed the process of registration with the Department of Ecology, and has provided such evidence to and has been verified by the Company.

**Compliance Period** means the four-year period for which the Compliance Obligation, as defined in RCW 70A.65.010(19), is calculated for a Customer that is a Covered Entity or Opt-In Entity. The first four-year Compliance Period contains the emissions years 2023 through 2026. The second four-year Compliance Period of RCW 70A.65 contains the emissions years 2027 through 2030.

**Emissions-Intensive Trade-Exposed or Emissions-Intensive Trade-Exposed**

**Manufacturing Facility (per WAC 173-446A-030) (“EITE”)** means a Customer owning facilities identified by the Department of Ecology as an emissions-intensive, trade-exposed industry entity under RCW 70A.65.110, where there is such evidence that is available or made available to the Company. It is the responsibility of the Customer to ensure that the Company has received such evidence of the Customer’s status as an EITE.

**GREENHOUSE GAS EMISSIONS CAP AND INVEST ADJUSTMENT (Continued)**

**SPECIAL TERMS AND CONDITIONS:**

1. Both monthly rates under this schedule, the State Carbon Reduction Charge and the State Carbon Reduction Credit, are applicable, except for the following Customers:
  - a. A Customer with emissions from facilities with North American industry Classification System code 928110 (National Security);
  - b. A Customer who has provided evidence to the Company that the Customer is registered as a Covered Entity, Opt-In Entity, National Security Entity or EITE that is also either a Covered Entity or an Opt-In Entity. A Customer who provides such evidence, or has provided it to the Company by the Department of Ecology 90 days before the beginning of the start of a new Compliance Period will not be charged or receive credits under this schedule at the beginning of the following Compliance Period. For the Compliance Period beginning in January 1, 2023, a Customer must provide such evidence within 90 days of the initial effective date of this tariff to not be charged or receive credits under this schedule beginning on the date of verification. It is ultimately the responsibility of the Customer to verify that the Company has received such evidence of the Customer's correct status, before the start of a new Compliance Period.
2. The State Carbon Reduction Credit is applicable only to a Customer that has been determined eligible.
3. A Customer taking optional service under Supplemental Schedule 137, Carbon Offset Service will not receive any participation credits for rates under this schedule.
4. Schedule 138 - Voluntary Renewable Natural Gas ("RNG") participants will be eligible to receive a RNG Participation Credit to be calculated by multiplying the number of therms per block of RNG reflected in Schedule 138 by the total number of blocks the Customer purchases each month, and then multiplied by the State Carbon Reduction Charge. This will have the effect of acting like a credit to reduce the State Carbon Reduction Charge equal to the amount of Renewable Natural Gas therm purchases comparable to the purchased block(s).
