COMMISSION**

**Washington Utilities & Transportation Commission v. Cascadia Water, LLC Docket No.
UW-240151**

Cascadia Water, LLC's Data Request Nos. 001 to 009

CASCADIA WATER 008: _____

CASCADIA WATER Data Request No. 008 to WCAW:

Do any WCAW members or executive committee members hold decision-making positions in any other water company, water service provider, or similar entity? If yes, please provide the name(s) of the WCAW member or executive committee member and the name of the other water company, water service provider, or similar entity for which the person holds a decision-making position.

Response: Objection, this data request is vague, overly broad, unduly burdensome and not designed to lead to the discovery of relevant evidence.

Without waiving said objections, Kent Hanson is the president of Goss Lakeridge Acres Association, a homeowner's association that operates a water distribution system and purchases water from Cascadia Water. No other executive committee members hold decision-making positions in any other water company, water service provider, or similar entity. To the best of our knowledge, no member of WCAW holds such a position.
