**SCHEDULE 86
SERVICE LINES**

1. OVERHEAD SERVICE LINES:

The Company will install permanent secondary voltage overhead service lines from its overhead distribution system on the following terms:

- a. The length of the service line allowed for the basic charge shown below shall be 70 feet, measured from the Customer's property line nearest the Company's distribution system along the path of construction to the point of delivery.
- b. Charges for overhead service lines shall be as follows:
 - (1) Single Phase:
\$141.00 basic charge plus \$2.03/foot for all excess footage
 - (2) Three Phase:
1/0 Wire - \$162.00 basic charge plus \$2.32/foot for all excess footage
4/0 Wire - \$269.00 basic charge plus \$3.84/foot for all excess footage
- c. The Customer shall reimburse the Company for the cost of relocating service lines, except for relocations for the convenience of the Company.
- d. Replacement of overhead service lines at the request of the Customer shall be subject to the charges in b.(1) or (2) above.
- e. The Company shall not be required to install secondary overhead service lines in an area served by an underground distribution system.

2. UNDERGROUND SERVICE LINES TO SINGLE-FAMILY RESIDENTIAL STRUCTURES:

The Company will install secondary voltage underground service lines to single-family residential structures on the following terms:

Issued: April 10, 1997 Effective: April 11, 1997

SCHEDULE 86
SERVICE LINES
(Continued)

- 6. **SECONDARY SERVICE LINE FEASIBILITY:**
The Company shall not be required to install any service line which, in its opinion, is economically unfeasible or exceeds secondary voltage feasibility according to Company standards. Installation of any line which exceeds secondary line feasibility according to Company standards will be subject to the provisions of Schedule 85. The Company shall not be required to install any secondary service line if the route of construction has not been cleared of all obstructions and brought to final grade.
- 7. **TEMPORARY SERVICE :**
This schedule does not apply to temporary service. Such service is subject to the provisions of Schedule 80 of this tariff.
- 8. **GOVERNMENTAL AUTHORITY:**
The manner and type of construction of any service line shall be subject to applicable governmental authority or law, and any increase in costs resulting therefrom and not reimbursed by an agency of the government or other person or entity shall be the responsibility of the Customer(s) or property owner(s) served by such service line.
- 9. **SCHEDULE 87:**
The installation of service lines by the Company under the provisions of this schedule shall be subject to the provisions of Schedule 87, Income Tax Rider.
- 10. **GENERAL RULES AND PROVISIONS:**
Service under this schedule is subject to the General Rules and Provisions contained in this tariff.

SCHEDULE 86
SERVICE LINES
(Continued)

- (3) Relocation or replacement of underground service lines at the request of the Customer shall be subject to the charges in (2) above.
- (4) Conductor provided in sizes other than those above shall be charged for at current costs.
3. UNDERGROUND SERVICE LINES TO MULTI-FAMILY RESIDENTIAL STRUCTURES, MOBILE HOME PARKS AND NON-RESIDENTIAL FACILITIES: The Customer shall install, own, and maintain all secondary underground service facilities beyond the secondary termination at the transformer or handhole.
4. OWNERSHIP OF FACILITIES: The Company shall own, operate, and maintain all facilities installed by the Company under this schedule.
5. OPERATING RIGHTS: Adequate legal rights for the construction, operation, repair and maintenance of overhead or underground service facilities over or through all property, including property not owned by the Customer, shall be provided to the Company by the owner or owners thereof prior to the commencement of construction of said facilities.
6. SECONDARY SERVICE LINE FEASIBILITY: The Company shall not be required to install any service line which, in its opinion, is economically unfeasible or exceeds secondary voltage feasibility according to Company standards. Installation of any line which exceeds secondary line feasibility according to Company standards will be subject to the provisions of Schedule 85. The Company shall not be required to install any secondary service line if the route of construction has not been cleared of all obstructions and brought to final grade.
7. TEMPORARY SERVICE: This schedule does not apply to temporary service. Such service is subject to the provisions of Schedule 80 of this tariff.
8. GOVERNMENTAL AUTHORITY: The manner and type of construction of any service line shall be subject to applicable governmental authority or law, and any increase in costs resulting therefrom and not reimbursed by an agency of the government or other person or entity shall be the responsibility of the Customer(s) or property owner(s) served by such service line.
9. SCHEDULE 87: The charges under this schedule are subject to the provisions of Schedule 87 where applicable. (The rates set forth in specific dollar amounts in this schedule include the effect of the factor specified in Schedule 87 where applicable.)
10. GENERAL RULES AND PROVISIONS: Service under this schedule is subject to the General Rules and Provisions contained in this tariff.
