Amendment No. 1 to the Agreement between State of Washington Department of Transportation and Verizon Northwest Inc. for 511 Routing Service

This is Amendment No. 1 ("Amendment No. 1") to the Agreement for 511 Routing Service (the "Agreement") between the State of Washington Department of Transportation ("Customer") and Verizon Northwest Inc. ("Verizon").

Whereas, the Agreement was filed with the Washington Utilities and Transportation Commission (the "Commission") June 26, 2003 as Contract No. 1259 and made effective July 10, 2003 in Docket No. UT-031039.

Whereas, the purpose of this Amendment No. 1 is to extend the term of the Agreement on a month to month basis for no more than twelve (12) months and provide for a transition of Service to a general tariff offering in the event a general tariff offering for this Service becomes available from Verizon.

The Agreement is modified as follows:

- 1. Customer is currently receiving Service under a prior agreement which will expire July 10, 2005. In order for Service to continue without interruption, this Amendment No. 1 must be fully executed and filed with the Commission no later than June 10, 2005 in order for the Commission to complete its review prior to the July 10, 2005 expiration date. As the Service under the prior agreement is not presently available in Verizon's tariff, if this Amendment No. 1 is not effective (as described in Section 2 of the Agreement and Section 5 below) by July 10, 2005, the Service must be disconnected and cannot be restored until this Amendment No. 1, or another agreement for the Service, is effective.
- Provided that this Amendment No. 1 is made effective on or before July 10, 2005, the term of the Agreement shall be extended on a month to month basis for up to twelve (12) consecutive month (the "Extension Term").
- During the Extension Term, the following charges shall apply for the Service:

*Non-Recurring charges do not apply to existing Service, but will apply to changes and additions.

4. When the Services supported under the Agreement are available in a Commission-effective general tariff offering by Verizon, Verizon will work cooperatively with Customer to transition the Services from the Agreement to the effective tariff. When the transition preparatory work is completed, Verizon will notify Customer that the Service is available for transition to the general tariff and will specify the date on which the transition will be completed (not less than thirty (30) business days unless agreed to by Customer in writing). The Agreement will automatically terminate when the transition is completed. There will be no early termination charges associated with the transition to the effective
