

**BEFORE THE WASHINGTON STATE  
UTILITIES AND TRANSPORTATION COMMISSION**

In the Matter of the Request of	)	DOCKET UT-060314
	)	
VERIZON NORTHWEST INC.,	)	ORDER 01
	)	
For Assignment of Telephone Number	)	ORDER ASSIGNING NUMBERING
Resources	)	RESOURCES
.....	)	

**BACKGROUND**

1 Verizon Northwest Inc., (Verizon or Company) requested on February 24, 2006, that the Commission overturn the numbering administrator's decision to withhold numbering resources and direct the Federal Communications Commission (FCC) Pooling Administrator to provide one number code in the 425 area code, Kirkland rate center. Verizon's inventory of telephone numbers for assignment in the rate center does not satisfy the requirement for additional numbers for Microsoft Corporation in Redmond. The customer requires resources to serve four new buildings opening in the next ninety days and five new buildings within the year at their Redmond Campus area. Specifically the customer requires an exchange code ending in a "1" that conforms to their five digit dialing plan. The growth Microsoft is experiencing has consumed current number blocks and the company forecasts to have exhausted the assigned direct inward dialing numbers within the next thirty five days. Verizon submitted a request to the Pooling Administrator for additional numbering resources in the rate center, however, the request was denied as Verizon did not meet the utilization threshold. Verizon will adhere to the requirement to review numbering resources and comply with the requirements of the Federal Communications Commission's North American Number Plan Administrator (NANPA) and PA regarding the return of numbers not utilized. Verizon provided the Commission with the customer request for number resources and proof of utilization in the rate center.

**FINDINGS AND CONCLUSIONS**

2 (1) On December 28, 2001, the Federal Communications Commission (FCC) issued an order establishing a "safety valve" allowing carriers that do not meet the utilization threshold in a given rate center to obtain additional numbering resources apart from the general waiver process. (*In the Matter of Numbering*

*Resource Optimization*, Third Report and Order and Second Order on Reconsideration, CC Docket 99-200, FCC No. 01-362, ¶¶ 57-66.) Specifically, the FCC granted to state commissions the authority to direct the Pooling Administrator (Neustar) to release numbers to a carrier to satisfy a specific customer request that can not be met with the carrier's current inventory. (*Id.* ¶ 64).

- 3 (2) The Commission has jurisdiction over this matter pursuant to RCW 80.36.610, which gives the Commission authority to take actions necessary to implement the Federal Telecommunications Act of 1996.
- 4 (3) Normally, additional numbering resources are granted only when existing resources are forecasted to exhaust within six months. [*47 CFR 52.15(g)(3)(iii)*].
- 5 (4) The Pooling Administrator website reports an inventory of 56 number blocks available in the Kirkland rate center. The North American Number Plan Administrator website reports an inventory of 301 number codes available in the 425 area code. The exhaust of area code 425 is scheduled for the first quarter of 2030.
- 6 (5) This matter was brought before the Commission at its regularly scheduled meeting on March 15, 2006.

## ORDER

### THE COMMISSION ORDERS:

- 7 (1) Neustar, Inc., acting as the Pooling Administrator, to release one number code in the Kirkland rate center, area code 425 to Verizon Corporation.
- 8 (2) The Commission retains jurisdiction over this matter to take such future actions as may be appropriate.

The Commissioners, having determined this Order to be consistent with the public interest, directed the Secretary to enter this Order.

DATED at Olympia, Washington, and effective March 15, 2006.

WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION

CAROLE J. WASHBURN, Executive Secretary
