Re: Inland Telephone Company Service to Suncadia

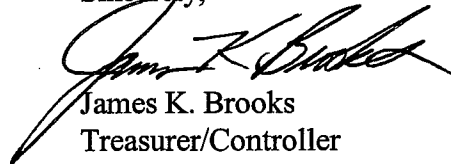

Dear Mr. Luersen:

It is Inland Telephone Company's ("Inland") understanding that Suncadia, the Washington Utilities and Transportation Commission, the Federal Communications Commission and Kitcom (Kittitas 911) have been issued a thirty-day notification of discontinuing service by Intelligent Community Services ("ICS"), the current provider of communications within the Suncadia Resort area. Inland is very interested in discussing access to customers within Suncadia and providing them with service. Inland would like to set-up a time and place to meet as soon as possible.

Inland would like to correct something that was in Brooks Harlow's, Monday, March 2, 2009, correspondence to Darin Honn. Inland has never proposed assuming the current agreement between ICS and Suncadia. In addition, Inland believes that with the cooperation of ICS and Suncadia, Inland's service could be available in ten (10) business days.

Since time is of the essence, Inland would like to begin discussions as quickly as possible. Please let us know your availability.

Sincerely,

James K. Brooks
Treasurer/Controller
