2. GENERAL REGULATIONS - CONDITIONS OF OFFERING

2.8 REGULATED NETWORK FACILITY TERMINATIONS

2.8.1 INTRA-PREMISES NETWORK CABLE AND WIRE

B. Terms And Conditions (Cont'd)

- 7. All IPNCAW facilities will be managed and maintained by the Company.
- 8. The Company may utilize wiring originally placed by the building owner to furnish regulated service to customers when such wire meets industry and/or Company standards. The Company shall have no obligation to use wire which does not meet industry and/or Company standards. When the Company is required to furnish regulated services to customers and the building owner agrees to make the wire originally placed by the building owner available for provision of these services, the Company will retain the right to the exclusive use, control and maintenance of only the wires used to provide regulated services for as long as regulated service is provided by the Company. At such time the Company uses wire to provide regulated services, these wires shall be deemed IPNCAW. When the IPNCAW is no longer required to provision regulated service, these wires shall be deemed Inside Wire. The building owner will resume maintenance and administrative responsibility of the Inside Wire.
- 9. Property/building owners may request placement of Inside Wire beyond the SNI by the Company. Such wire will be provided under deregulated time and material charges.
- 10. In situations where a building owner elects Option 1, the Company agrees to provide the building owner, upon request, and subject to availability and appropriate protections regarding proprietary or confidential information, existing Company's "as is" drawings of IPNCAW. Such drawings will be provided on an "actual cost" basis to the building owner.

2.12 NATURAL DISASTER RELIEF FOR CUSTOMERS

In situations where customers' telecommunications services are interrupted by natural disasters, the Company may offer alternative telecommunications services to customers in the immediate affected area, and waive otherwise applicable charges for those services. The availability and details of the offers, including, but not limited to, the maximum duration of the offer or waiver of any applicable charges, will be determined by the Company in each instance of natural disaster.
