<b>NOTES:</b>									
*	Unless otherwise indicated, all rates are pursuant to Washington Utilities and Transportation Commission Dockets:								
A	Generic Cost Docket, UT-960369								
B	Docket UT-003013, Part A								
C	Docket UT-003013, Part B								
D	Docket UT-003013, Part C								
E	Docket UT-003013, Part D								
F	Docket UT-023003								
#	Denotes voluntary rate reduction. These rates are not subject to true up and will be applied on a going forward basis. Deaveraged loop and subloop (distribution and feeder) rates are pursuant 37th supplemental order in Docket UT-003013.								
1	Rate not addressed in a cost proceeding (Estimated TELRIC)								
2	Market based rates not addressed in the Cost Docket.								
3	Individual Case Basis								
4	Rate per FCC guidelines.								
5	Qwest has agreed to a bill and keep arrangement for EICT, pursuant to 271 workshops.								
6	When intrastate tariffed DS3 Private Line Transport (PLTS), Local Interconnection Service (LIS) or EEL share the same PLTS multiplexed DS3, the fraction of DS0's dedicated to LIS, EEL, or intrastate PLTS is divided by 672 and multiplied by the applicable products' DS3 rate elements. The Qwest mechanized implementation team will notify the Qwest Service Delivery LIS process manager of this customer-specific requirement.								
7	Qwest has not implemented the NID recurring charge but reserves the right to assess such a charge in the future.								
8	Intentionally Left Blank								
9	Intentionally Left Blank								
10	The provision of transiting services is not required pursuant to Section 251 of the Telecommunications Act. Qwest has chosen to offer this service as part of its interconnection agreement, but this service is not required to be priced according to a TELRIC methodology.								
11	Rate was ordered for a similar element and is being used because the costs for this element are the same.								
12	Rate was previously ordered for this element in a different section of Exhibit A.								
13	The preliminary engineering and planning costs are included in the virtual, caged and cageless space construction charges. These engineering and planning charges are also included in the virtual, caged and cageless quote preparation fees. Upon completion of the collocation construction, the quote preparation fee (QPF) will be credited to the final space construction charge for the collocation job.								
14	Qwest is reinstating the Cable Unloading and Bridge Tap Removal Charges effective 3/14/05. Because Qwest can't currently bill the existing rate structure, customers will be charged the Lower Bridge Tap Removal rate for either Cable Unloading or Bridge Tap Removal								
15	Effective 8/1/03 Qwest will no longer charge for Channel Regeneration for both recurring and nonrecurring charges. Contract amendments to remove the charge is not required. Qwest reserves the right to revert back to the contractual rate only after appropriate notice is given. Future regulatory ruling and/or events may be subject to the conditions described under "Change in Law Provisions" of the SGAT (Section 2.2) or the applicable interconnection agreement.								
@	(Qwest) Element Added or Rate Changed per Amendment
