DEFINITIONS (Continued)

Subscriber

A person or agency subscribing for telephone service. As used in this Tariff, a separate Subscriber is involved at each location, or continuous property, where service is furnished. One individual or firm therefore may be considered as two or more separate Subscribers, even in the same Exchange. The privileges, restrictions, and rates established for a Subscriber to any class of service are limited to the service at one location; and no group treatment of service at separate locations furnished to one individual or firm, is contemplated or to be implied, except when definitely provided for in the schedules.

Tariff

The document filed by the Company with the Washington Utilities and Transportation Commission which lists the communication services offered by the Company and the associated rates and charges.

Telephone Station

A suitable telephone instrument, consisting of a transmitter, receiver, and associated apparatus, so connected as to permit transmitting of and receiving telephone messages.

Toll Message

A message from a calling station to a station located in a different local service area.

Toll Service

Telephone service rendered by the Company or another carrier between patrons in different local service areas in accordance with the rates and regulations specified in the applicable carrier's tariff or price list.

Trunk

A telephone communication channel between (a) two ranks of switching equipment in the same central office, (b) between central office units in the same switching center, or (c) between two switching centers.

GENERAL RULES AND REGULATIONS

A. APPLICATION

The rules and regulations specified herein apply to the intrastate services and facilities of Skyline Telecom, Inc., hereinafter referred to as the Company. Failure on the part of the Subscriber to observe these rules and regulations of the Company, after due notice of such failure, automatically gives the Company the authority to discontinue the furnishing of service.

In the event of a conflict between any rate, rule, regulation or provision contained in these General Rules and Regulations and any rate, rule, regulation or provision contained in the specified tariffs, the rate, rule, regulations or provision contained in the specific tariffs shall prevail.

These tariffs cancel and supersede all other tariffs of the Company issued and effective prior to the effective date of these tariffs.

B. EXPLANATION OF SYMBOLS

- (C) Signifies a changed regulation.
- (D) Signifies a discontinued rate, treatment or regulation.
- (I) Signifies an increased rate or new treatment resulting in increased rate.
- (K) To signify that material has been transferred to another sheet or place in the tariff.
- (M) To signify that material has been transferred from another sheet or place in the tariff.
- (N) Signifies a new rate, treatment or regulation.
- (R) Signifies a reduced rate or new treatment resulting in reduced rates.
- (T) Signifies a change in text but no change in rate, treatment or regulation.

GENERAL RULES AND REGULATIONS (Continued)

C. OBLIGATION OF COMPANY

1. Availability of Facilities

The Company's obligation to furnish telephone service is dependent upon its ability to secure suitable facilities and to provide such service without unreasonable expense.

2. Interruption of Service

An allowance will be made upon notice and demand to the Company for interruption of service not due to Subscriber negligence if the interruption continues for more than twenty four hours from the time it is reported to or detected by the Company. The allowance will be the prorated portion of the monthly rate for the service made inoperative.

The Company will credit a Customer's account by an amount equal to the monthly rate for one month of basic exchange service (Network Access Line Service), if the Customer reports an out-of-service condition which has deteriorated service to the extent that the Customer cannot make local calls or cannot receive local calls or cannot use the service for voice-grade communications because of cross talk, static, or other transmission problems, and service is not restored (1) within sixteen hours after the report of the outage if the Customer notifies the Company that the service outage creates an emergency for the Customer or (2) within twenty-four hours after the report of the outage if no emergency exists, except that outages reported between noon on Saturday and 6:00 p.m. on the following Sunday must be restored within forty-eight hours or by 6:00 p.m. on the following Monday, whichever is sooner.

The credit will not apply to "out-of-service" conditions resulting from the willful neglect, misuse or abuse by the Customer. The credit will not apply to "out-of-service" conditions where the outage is in the Customer's inside wire or Customer's premises equipment. This credit will not apply to "out-of-service" conditions resulting from natural disasters, or circumstances beyond control and knowledge of the Company. This credit also will not apply to "out-of-service" conditions where service has been temporarily or permanently discontinued for nonpayment of bills.

GENERAL RULES AND REGULATIONS (Continued)

3. Use of Connecting Company Lines

Lines of other connecting companies may be used to reach points outside the Company area when suitable arrangements can be made.

4. Defacement of Premises

The Company will repair or replace any defacement or damage of property due to installation, existence or replacement of Company property, when the damage is the result of negligence of the Company.

5. Adjustment of Charges

In case of overbilling, a refund will be made consistent with WAC 480-120-116 and statute.

In case of underbilling, the Company reserves the right to backbill for the deficiency charges up to a period of two years.

D. USE OF SERVICE AND FACILITIES

1. Ownership and Use of Equipment

All equipment and lines furnished by the Company are the property of the Company even though located on the Subscriber's premises. Company agents or employees shall have the right to enter said premises at any reasonable hour to install or maintain equipment, make collections, or remove equipment.

The Company may refuse to install or maintain any service at locations which are hazardous to Company employees. If such service is furnished, the Subscriber may be required to install and maintain such service, holding the Company harmless from any claims of damage by reason of the installation and maintenance of this service.

GENERAL RULES AND REGULATIONS (Continued)

2. Interconnection Policy

Subscriber-provided terminal equipment may be used and Subscriber-provided communication system may be connected with the facilities furnished by the Company for telecommunications services subject to regulations outlined in other parts of this tariff. In case any unauthorized attachment is made, the Company shall have the right to disconnect, suspend, or terminate the service.

3. Use of Subscriber Services

Subscriber telephone service is furnished only for the use by the Subscriber, his or her family, and associates. The Company may refuse to install or permit such service to remain on premises of public or semi-public character. The equipment may be installed at such locations provided the service is located so it is not accessible for public use.

4. Tampering with Equipment

The Company may refuse to furnish telephone service when Company equipment shows any evidence of tampering for the purpose of obtaining service without payment of charges applicable to the service rendered by the Company.

5. Use of Improper Language or Impersonation of Another

The Company may refuse service to anyone who uses or permits abusive or obscene language over Company facilities or impersonates another individual with fraudulent or malicious intent.

6. Liability

- a. The liability of the Company for damages arising out of mistakes, omissions, interruptions, delays, or errors or defects in transmission occurring in the course of furnishing a service and not caused by the negligence of the Customer or third parties, shall, in no event, exceed an amount equivalent to the proportionate charge to the Customer for the period of service during which such mistake, omission, interruption, delay, or error or defect in transmission occurs.

GENERAL RULES AND REGULATIONS (Continued)

- b. When the facilities of other companies are used in establishing connections to points not reached by the Company's facilities, the Company is not liable for any act or omission of the other Company or companies.
- c. The Company is not liable for any unavoidable damage to the Customer's premises resulting from the attachment of its equipment and associated wiring, on such premises, or from the installation or removal thereof.
- d. Overcharges by the Company shall be refunded to the Customer in compliance with WAC 480-120-116.
- e. The Company is not liable for any accident, injury or death occasioned by its equipment or facilities when such is not due to gross negligence or willful misconduct of the Company.
- f. The Company is not liable for any of the following:
 - 1. Claims for libel, slander or infringement of copyright from the materials transmitted or recorded over its facilities;
 - 2. Claims for infringement of patents arising from combining with or using in connection with facilities of the Company.

6. Liability (Continued)

3. Apparatus and systems owned by the Customer; or
 4. All other claims arising out of any act or omission of the Customer in connection with facilities provided by the Company.
 5. Loss of data or damage to software.
 6. Errors in directory listings.
- g. The Company will make best efforts unless commercially impracticable to cure any material failure to provide service caused solely by year 2000 defects in the Company hardware, software or systems. Due to the interdependence among telecommunications providers and the interrelationship with non-Company processes, equipment and systems, the Company is not responsible for failures caused by circumstances beyond its control, including, but not limited to, failures caused by: 1) the Customer; 2) other telecommunications providers; or 3) Customer premises equipment. In addition, the Company does not ensure compatibility between the Company and non-Company service used by the Customer.
- h. To the extent required by law or judicial precedent, this tariff shall not be construed to limit the Company's Liability, if any, for its gross negligence or willful misconduct.

E. ESTABLISHMENT AND FURNISHING OF SERVICE

1. Application for Service

The Subscriber may be required to pay in advance all charges for the first billing period and connection charge if applicable. The conditions of such contracts are subject to all provisions of this and other applicable tariffs. Requests for additional service may be made orally, if provided in the original contract, and no advance payment will be required. A move within the exchange area is not considered to terminate the contract and orders for such may be made orally.

GENERAL RULES AND REGULATIONS (Continued)

E. ESTABLISHMENT AND FURNISHING OF SERVICE (Continued)

2. Telephone Numbers

The Customer has no property right in the telephone numbers assigned by the Company and no right to continuance of service through any particular central office. The Company may change the telephone number or central office designation of a Customer whenever it considers it desirable in the conduct of its business.

When existing service is continued for a new Customer, the telephone number assigned to the former Customer may be retained by the new Customer only: (a) if the former Customer consents and properly notifies the Company in writing; and (b) if arrangements acceptable to the Company are made by the new Customer to pay all outstanding charges against the service to the Company.

3. Alterations

The Subscriber agrees to notify the Company of any alterations which will necessitate changes in the Company's wiring; and the Subscriber agrees to pay the Company's current charges for such changes.

4. Payment of Service

The Subscriber is required to pay all charges for services rendered by the Company, both exchange and toll in accordance with provisions contained elsewhere in this tariff. The Subscriber is responsible for all charges for service rendered at his telephone, including collect charges.

5. Maintenance and Repairs

The Company shall bear the expense of all repair and maintenance of its facilities, except where damage or destruction of its facilities is due to the neglect of the Subscriber. The Subscriber may not rearrange, remove, or disconnect any Company facilities without consent of the Company.

GENERAL RULES AND REGULATIONS (Continued)

E. ESTABLISHMENT AND FURNISHING OF SERVICE (Continued)

6. Line Extensions

Lines will be extended to permanent Customers in accordance with the guidelines established in the Construction Charge section. Where required by the conditions, applicants may be required to provide to the Company suitable private right-of-way parallel to the public highway.

7. Unusual Installation Costs

When special conditions or special requirements of the Subscriber involve unusual construction or installation costs, the Subscriber may be required to pay a reasonably proportionate share of such cost. Title to all facilities constructed and paid for wholly or in part by the Subscriber is vested in the Company.

F. TELEPHONE DIRECTORIES

The Company will furnish to its Subscribers directories in accordance with WAC 480-120-042.

G. ESTABLISHMENT AND MAINTENANCE OF CREDIT

1. Deposits

All applicants for service will be required to establish satisfactory credit with the Company. This would most often be demonstrated through prior service with the Company, or a company of the same type, of at least twelve months duration, ending no longer than one year prior to the date of application during which the service was not disconnected for failure to pay and no more than two delinquent notices were served on the Customer.

If satisfactory prior service, or one of the factors identified in WAC 480-120-056(3), cannot be demonstrated, a deposit will be required. Deposit amount will ordinarily equal two months customary residential use or for business service, two-twelfths of estimated annual billing. In the case where the applicant has no prior telephone service, the deposit requirement will be in accordance with WAC 480-120-056(5)(a)(ii).

SKYLINE TELECOM, INC.

GENERAL RULES AND REGULATIONS (Continued)

G. ESTABLISHMENT AND MAINTENANCE OF CREDIT (Continued)

The Company may not impose any deposit requirements more stringent than identified in WAC 480-120-056.

2. Interest to be Paid on Deposits

Interest on deposits held shall be accrued at a rate based upon a simple average of the effective interest rate for new issues of one year treasury bills, computed from December 1 of each year, continuing through November 30 of the following year. Deposits would earn that interest rate during January 1 through December 31 of the subsequent year. Interest shall be computed from the time of deposit to the time of refund or total application of the deposit and shall be compounded annually. These conditions are in compliance with WAC 480-120-056.

3. Reconnection Charge

When the Company has cause to totally disconnect or has totally disconnected a residential service, it shall postpone disconnection of local service or shall reinstate local service after receiving either verbal or written notification of the existence of a medical emergency for a grace period of five business days. When service is reinstated, payment of a reconnection charge and/or deposit shall not be required prior to reinstatement of local service. These conditions are in compliance with WAC 480-120-081.

4. Customer Billing

The Company adopts by reference WAC 480-120-106 for Customer billing and all amendments to those rules which may be hereafter adopted by the Washington Utilities and Transportation Commission.

H. MINIMUM CONTRACT PERIODS AND TERMINATION OF SERVICE

1. Minimum Contract Periods

Except as hereinafter provided, the minimum contract period for all services and facilities is one month at the same location. The Company adopts by reference WAC 480-120-066 for minimum contract periods.

Issued: February 24, 2010

GENERAL RULES AND REGULATIONS (Continued)

H. MINIMUM CONTRACT PERIODS AND TERMINATION OF SERVICE (Continued)

2. Termination of Service - Subscriber's Request

Service may be terminated prior to the expiration of the minimum contract period upon notice being given to the Company, and upon payment of any applicable termination charges, in addition to any applicable charges due for service which has been furnished.

In the case of service for which the minimum contract period is one month, termination will require that charges due for the balance of the minimum period be paid. In the case of directory listings where the listing has appeared in the directory or where a non-listed or non-published listing has been properly omitted, the charges are due to the end of the directory period, except that in the following cases charges will be continued only to the date of the termination of the extra listing or proper omission with a minimum charge of one month:

- (1) The Contract for the main service is terminated.
- (2) The listed party becomes a Subscriber to some other class of service.
- (3) The listed party moves to a new location.
- (4) The listed party dies.

For special equipment, the charges will be based on the individual circumstances in each case as agreed upon at the time of installation.

Contracts for periods longer than one month covering services whose installation required line extensions may be terminated upon payment of all charges that would accrue to the end of the contract period, or the contract will be transferred to a new applicant who is to occupy the same premises and will subscribe to the service effective on the day following termination by the original Subscriber.

Service may be terminated after the expiration of the initial contract period, upon the Company being notified, and upon payment of all charges due to the date of termination of the service.

3. Termination of Service by the Company

The Customer shall be required to give notice to the Company of its intention to discontinue service. The Company may discontinue service for nonpayment of bills, deposits or any other proper charge or reason as provided by the Company's tariff.

Before disconnection service the Company shall make a good faith effort to notify the Customer. Subsequent to a Customer's account being delinquent, the Company shall serve written notice of disconnection on the Customer either by mail or personal delivery of the notice to the Customer's address. Service shall not be disconnected prior to the eighth business day following mailed notices or prior to 5 p.m. of the first business day following for personally delivered notices.

In all cases discontinuance of service by the Company must be in compliance with WAC 480-120-081.

I. PAYMENT FOR SERVICE AND FACILITIES

The Subscriber shall pay for service and facilities monthly in advance and shall pay for Moves and Changes when billed. Failure to receive a bill does not relieve the Subscriber of the responsibility for payment in accordance with the provisions set forth herein.

All bills for service are due and payable at the office of the Company on or before the twentieth day following the post marked date of the statement of the month in which the bill is rendered. After the 20th day, bills are delinquent and subject to termination policy. If the bill is not paid when due, the Company may make a late payment charge of 1.5% and the Company may apply any deposit towards the outstanding balance.

J. SPECIAL SERVICES AND FACILITIES

Special services and facilities not ordinarily used in the furnishing of telephone service and not otherwise provided for by the tariff schedules of the Company may be furnished or leased pursuant to special contract for such special service or facility for such period as may be agreed upon, provided such special service or facility or the use made thereof is not unlawful and does not interfere with the telephone service furnished by the Company. Special services are provided for each individual application as a custom-engineered system to satisfy and provide for the needs of that Customer. Applicable charges will be determined by the revenue requirements of the Company for each individual system. In the event any such special service or facility or the use made thereof interferes with the furnishing of the telephone service by the Company, the Company may terminate such contract and cease to furnish such special service or facility after thirty days written notice to the Subscriber; and provided further that the commission may terminate such contract whenever, in its opinion, public interest requires such termination.

K. RESALE OF SERVICES

The Company shall deny service to a nonregistered telecommunications company that intends to use the service requested to provide telecommunications for hire, sale, or resale to the general public within the state of Washington. Any telecommunications company requesting service from a local exchange company shall state in writing whether the service is intended to be used for intrastate telecommunications for hire, sale, or resale to the general public. These conditions are in compliance with WAC 480-120-061.

A. RATES - Access Lines (including Leased Lines)	<u>MONTHLY RATES</u>	
	<u>Residence (R-1)</u>	<u>Business (B-1)</u>
1. Local Service	\$19.50	\$25.00

B. CONDITIONS

1. The above rates apply to the provision of Access Lines which, when connected to a suitable telephone instrument provides access to the telephone network.

Instruments must be provided by the Subscriber, subject to the conditions described in the Connection With Subscriber-Owned Equipment portion of this tariff.

Additional instruments may be attached to Access Lines. The Company reserves the right to limit the number of instruments connected to an access line if they cause interference with the normal operation of the line.

2. Business Rates Apply:

At any location where activities are of a business, trade, or professional nature. At any location where the listing of service at that location indicates a business, trade, or profession.

Where only one Access Line is provided at a location which is both a residence and a business.

At schools, hospitals, libraries, churches, and other similar institutions.

3. Residence Rates Apply:

At a private residence where business listings are not provided and telephone service is not used for the conduct of business.

At the place of residence of a clergyman, physician, or other medical practitioner provided the Subscriber does not maintain an office in the residence.

The Company participates in the Washington Telephone Assistance Program established by Chapter 229, Washington Laws of 1987 as amended by Chapter 170, Laws of 1990 and Chapter 480-122 of the Washington Administrative Code; offers to eligible Subscribers the Washington Telephone Assistance Program described therein; and, applies to switched access lines within its exchange areas the excise tax described therein. To the extent applicable, Chapter 229, Washington Laws of 1987 as amended by Chapter 170, Laws of 1990 and Chapter 480-122 of the Washington Administrative Code are by this reference thereto incorporated herein as though fully set forth herein, and copies thereof are on file and available for inspection in the Company's business office.

Subscribers eligible to participate in the Washington Telephone Assistance Program may also be eligible for the Lifeline local service offering and Link-up program discount for connection fees under the Federal Communications Report and Order in CC Docket No. 96-45 (FCC 97-157) and 47 C.F.R. § 54.400-470. Within the service area(s) for which the Company is designated as an "eligible telecommunications carrier" in accordance with Subpart C of Part 54 to Title 47, Code of Federal Regulations, the Company offers to "qualifying low-income consumers." Toll Limitation service in the form of Toll Blocking is available at no charge to Subscribers who participate in the Lifeline program. Under Toll Blocking the Subscriber may elect not to allow the completion of toll calls from his or her telephone line. Collect calls accepted by a person answering the Subscriber's telephone and calls billed from another location to the Subscriber's telephone line are not blocked under this service.

Lifeline service is a retail local service offering that is available only to qualifying low-income consumers and for which qualifying low-income consumers pay charges that have been reduced in certain respects. Under the Link Up program, qualifying low-income consumers (1) may receive a reduction in the Company's customary charge for commencing telecommunications service for qualifying connections at qualifying locations and (2) may have a deferred schedule for payment of qualifying charges assessed by the Company for commencing such service.

C. WASHINGTON TELEPHONE ASSISTANCE PROGRAM

Eligible persons shall receive a fifty percent discount on service connection fees. Any connection fee discounts available from other programs shall be added to the telephone assistance discount, thus paying part or all of the remaining fee. The service connection fee remaining after application of the discount shall be payable in no fewer than three installments. A Subscriber may choose to pay the connection fee in a lump sum. Eligible persons shall be allowed one connection fee discount per eligibility period. These conditions are in compliance with WAC 480-122-030.

D. DEFINITIONS

Service Order

Applicable to work done in receiving, recording and processing information necessary to execute a Customer's request for the establishment of service. It is also applicable for Customer's request for additions, moves or changes to existing service.

Premises Visit

Applicable if a Company employee must visit the Customer's premises to move or change a service drop or standard network interface at the Customer's request. Not applicable when a Company employee is on the Customer's premises for any other business purpose.

Line Connection

Applicable for work done in the Central Office or work involving Central Office equipment necessary to provide a network access line or make changes to an existing network access line.

If service requires work in more than one Central Office area, this charge applies for each office.

CUSTOM CALLING FEATURES (CCF) (Continued)

C. DEFINITIONS

Speed Calling - permits placing local and long distance calls to preselected telephone numbers by dialing an abbreviated code. To add a number to the calling list the Customer uses his own telephone.

Call Waiting - a distinctive tone informs the telephone user that another call has been placed to his or her line. By briefly depressing the hookswitch, the user will be connected to the second caller while holding the first, subsequent depressions of the hookswitch will allow the user to alternate between callers.

Conference Calling - permits a telephone user to add a third party to an existing local or long distance call. It will also permit a telephone user to consult privately with a third party while holding the original call.

Call Forwarding - permits transfer of all incoming calls automatically to any dialable number. The number can be selected by the Customer each time Call Forwarding is activated or the call directed to the previously selected number. If the alternate location is not a free call the Customer will be billed for each call forwarded.

Fixed Calling - after dial tone is obtained, if the caller does not commence dialing within a predetermined length of time, a call will automatically be placed to a number previously selected by the Subscriber.

Line Busy Call Diversion - permits call to automatically be transferred to a predetermined alternate number whenever the primary number is busy. The alternate number can be any dialable number and can be modified only at the Central Office. If the alternate location is not a free call the Customer will be billed for each call diverted.

ADVANCED CUSTOM CALLING FEATURES (ACCF) (Continued)

B. CONDITIONS

1. Advanced Custom Calling Features are available only to those Subscribers who are served from a Central Office equipped to provide such services.
2. Certain Advanced Custom Calling Features are not available with party line service.
3. Calling Name and Number Deliver, Blocking and Anonymous Caller Rejection require an additional piece of Customer Provided Equipment (CPE) to fully activate feature.
4. Selective Call Forwarding, Selective Call Rejection, Selective Call Acceptance, and Distinctive Ringing/Call Waiting provide Customers with four different options for treating incoming calls. Each feature is capable of holding a list of up to 12 directory numbers (DNS) that should receive screening treatment. Once a Customer has programmed the list and turned on the feature, the switch will screen each incoming call and direct the call to the treatment specified by the feature.
5. For those Advanced Custom Calling Features billed on a per usage basis excluding Call Trace, a maximum amount as listed above will be billed once the per usage charges reach or exceeds the maximum.
6. From time to time, the Company may offer special promotions to its Customers. These offerings will generally consist of a reduced price, a waiver of installation charges, or a free service with a purchase of another service. These offerings may be limited to certain dates and locations, and will be for limited time periods. When such an offering is made, the Washington Utilities and Transportation Commission will be notified and a copy of the offering notice will be provided to them.

C. OBLIGATION OF COMPANY

Limitation of Obligation with Respect to Privacy Concerns.

The Company shall be held harmless by the Subscriber in cases where the Subscriber's telephone number is transmitted via the Caller ID CLASS Feature to another Subscriber who subscribes to that service, and the Subscriber has not blocked the transmission of his telephone number.

D. OBLIGATION OF THE SUBSCRIBER

Under no circumstances should any Subscriber to the Caller ID Advanced Custom Calling Feature use telephone numbers delivered to the Customer for purposes of marketing any service, or for the sale of those numbers to any interested party. Permitted uses of the number information received through the Caller ID service include:

billing and collection, routing, screening, and completion of the originating Subscriber's call or transaction, or for services directly related to the originating Subscriber's call or transaction.

Caller ID information can be used only to market goods and services to existing Customers, and only to market goods and services to existing Customers that are directly related to those the existing Customer already uses.

Notification of illegal procedures having been given herein, the Company shall be held harmless by all parties in cases where Subscribers of the Company use this information in an unauthorized manner, as described above.

E. DEFINITIONS

Automatic Callback - allows the Subscriber to automatically return a call to the number of the phone that last called. By dialing the access code (*66) push-button or 1166 rotary, the callback feature will automatically dial the last calling number. The feature can be deactivated by dialing (*86) push-button or 1186 rotary.

E. DEFINITIONS (Continued)

Automatic Recall - allows the Subscriber who calls a busy number to dial an access code (*69) push-button or 1169 rotary to be alerted, by way of a distinctive ring, when the number is no longer busy. When the user picks up their phone, they will be connected automatically to the previously busy number. To deactivate the Automatic Recall feature, the user can dial (*89) on a push-button phone or 1189 on a rotary phone.

Call Forward Busy Incoming - allows a Subscriber to have incoming calls (those which originate outside the group) forwarded to another number when the called number is busy. The Subscriber can activate the feature by dialing (#90) push-button (1190 rotary), and deactivate the feature by dialing (#91) push-button (1191 rotary).

Call Forward Don't Answer Incoming - allows a Subscriber to have incoming calls (those which originate outside the group) forwarded to another number if the Subscriber does not answer after a preset number of ringing cycles which are set by the Company. The Subscriber can activate the feature by dialing (#92) push-button and deactivate the feature by dialing (#93) push-button.

Call Forwarding Busy - allows a Subscriber to have all calls (incoming or intragroup) forwarded to a predetermined alternate number when the called number is busy, i.e. the Subscriber can activate the feature by dialing (*90) push-button or 1190 rotary and deactivate the feature by dialing (*91) push-button or 1191 rotary. The alternate number can be any dialable number and can be modified only at the Central Office. If the alternate location is not a free call, the Subscriber will be billed for each call diverted.

Call Pick Up - allows a Subscriber to answer calls that are directed to other phones within a pickup group. The access code to activate the feature is (*8) for a push-button phone.

Call Pick Up Directed - allows a Subscriber to answer a call directed to another line which has been answered or is ringing by dialing a preset access code (#60) and the telephone number of the line to be answered. Both the originating line and the line to be answered must be equipped with the feature.

E. DEFINITIONS (Continued)

Automatic (COT) - allows a Subscriber to have the last incoming number automatically traced. The results of the trace are not provided directly to the Subscriber, they are output to the Company. The Company, at the Subscriber's request, will forward the results to the police after a case number has been assigned by the police. The access code for this feature is (*57) push-button or 1157 rotary.

Manual (COT) - allows a Subscriber to request the Company to trace incoming calls. This is usually in response involving law enforcement entities.

Caller ID - Name and Number - allows for the automatic delivery of a calling party's name and telephone number (including nonpublished and nonlisted telephone numbers) to the called Customer, after the first ring but before the call is answered. The name and number are displayed on Customer provided equipment.

The name displayed shall be the name associated with the calling telephone number as shown on the Company's records. The Company, in its discretion, may abbreviate or limit that name for display purposes. The Company does not assure name accuracy, and it shall not be liable to any party for errors, omissions or mistakes. The Company's sole obligation shall be to reasonably correct errors in names when notified in writing of such errors.

The calling telephone name and number is only available in those areas where appropriate signaling network connections exist to forward the calling party's name and number. The calling name and number is also not available when incoming calls have been handled by an operator or charged to credit cards. Number delivery for calls originated from a PBX will display the main PBX number only. If the caller's number is a multi-party line, or is blocked, the number will not be displayed.

Caller ID information transmitted via Caller ID may not be sold or given to another party without the caller's consent. Caller ID information may only be used for: a) routing or completion of calls, b) billing of calls, c) account management purposes, d) services directly related to the call or transaction, e) verification of calling party identity and f) marketing products or services that are directly related to those previously acquired by the Subscriber from the number delivery services Subscriber. Caller ID Subscribers failing to comply with any of these conditions will have their service terminated.

E. DEFINITIONS (Continued)

Caller ID - Number - same as "Name and Number" except only the calling party's number is delivered.

Caller ID Per Call (*67) Blocking - allows a Subscriber to block delivery of his/her name and number when calling someone with Caller ID capabilities. The activation code for this feature is (*67) push-button or 1167 rotary. This feature is provided free of charge to all Subscribers receiving telephone service from suitably equipped central offices.

Caller ID - Per Line Blocking - provides a permanent indicator on a Customer's line. Once block is established on the Customer's line, the private status can be deactivated by the Customer on a per call basis.

Caller ID - Per Call Unblocking - allows a Subscriber who has Caller ID - Per Line Blocking to unblock delivery of his/her name and number when calling someone with Caller ID capabilities. The activation code for this feature is *82 (1182 rotary). This feature is provided free of charge.

Dial Call Waiting - allows a Subscriber with a line equipped with the feature to direct a Call Waiting tone or a Distinctive Ringing signal to a line equipped with Distinctive Ringing. The feature is activated by dialing a preset access code (#81) (1181 rotary) and the telephone number the line to which the signal is directed.

Do Not Disturb - allows Subscribers to prevent incoming calls from ringing at their stations. Only callers who have the Subscriber's Personal Identification Number (PIN) can override the Do Not Disturb feature. To activate the feature, the Subscriber can dial (*78) push-button or 1178 rotary. To deactivate the feature, the Subscriber can dial (*79) push-button or 1179 rotary. Subscribers with push-button phones can change their PIN by dialing the access code (#87) push-button or 1187 rotary.

E. DEFINITIONS (Continued)

Fixed Calling - after dial tone is obtained, if the caller does not commence dialing within a predetermined length of time, a call will automatically be placed to a number previously selected by the Subscriber. If the number is long distance, the Subscriber is liable for any charges.

Make Busy - allows the line to appear busy, even when not engaged. To activate the feature, dial (*58) push-button or 1158 rotary. Dialing (*59) push-button or 1159 rotary will deactivate the feature.

Selective Call Acceptance - allows Subscribers to specify a list of numbers from which they are willing to accept calls. Calls from numbers not contained on the list are routed to an appropriate announcement. The access code for this feature is (*84) push-button or 1184 rotary, and is used to add or delete numbers from the list of acceptable calls.

Selective Call Forwarding - permits the Subscriber to create a list of calling numbers that are to be call forwarded. If a call is received from a Directory Number on the screening list, the call is forwarded to the designated forwarded number. All other calls are treated normally. The access code for this feature is (*83) push-button or 1183 rotary.

Stop Hunt - allows a Subscriber to stop an existing hunt sequence at a designated point or line. The access code to activate the feature is (*50) push-button or 1150 rotary. To deactivate the feature dial (*51) push-button or 1151 rotary.

Usage Sensitive Call Forwarding - causes all calls attempting to terminate to a Subscriber's line to be directed to an alternate line, whether the Subscriber's line is busy or idle. The feature differs from standard Call Forwarding in that the Subscriber is charged on a usage basis rather than a flat rate basis. The access code to activate the feature is (*72) push-button or 1172 rotary. To deactivate the feature the access code is (*73) push-button or 1173 rotary.

Usage Sensitive 3-Way Calling - allows a Subscriber to add a third party into an existing conversation by dialing an access code (*71) push-button or 1171 rotary. The feature differs from standard 3-Way Calling in that the Subscriber is charged on a per usage basis rather than a flat rate basis. The access code to activate the feature is (*74) push-button or 1174 rotary. To deactivate the feature the access code is (*75) push-button or 1175 rotary.

Voice/Data Protection - allows a Subscriber to inhibit intrusion features (e.g., Call Waiting and Operator Verification) when the Subscriber's line is busy. Voice/Data Protection prevents data transmission errors typically caused by the interruption tones associated with such features. The Subscriber can activate the feature by dialing (*97) push-button or 1197 rotary and deactivate the feature by dialing (*98) push-button or 1198 rotary.

Voice/Data Protection Usage Sensitive - allows a Subscriber to inhibit intrusion features (e.g., Call Waiting and Operator Verification) when the Subscriber's line is busy. Voice/Data Protection prevents data transmission errors typically caused by the interruption tones associated with such features. This feature differs from standard Voice/Data Protection in that the feature remains in effect for the duration of only one call upon activation, and the Subscriber is charged on a per usage basis. The Subscriber can activate the feature by dialing (*94) push-button or 1194 rotary.

Wake Up Service - allows a Subscriber to dial an access code, receive a second dial tone, and then dial a time at which a wake-up call is desired. At the entered time, a call is automatically attempted to that line and, when the call is answered, a tone or an optional announcement is applied to that line. The Subscriber can access the feature by dialing (*76) push-button and can cancel the request by dialing (*77) push-button.

CONSTRUCTION CHARGES

A. REAL ESTATE SUBDIVISIONS

Line extensions into real estate subdivisions will be made by the Company provided 60% of the estimated total cost of such extension is advanced to the Company by the subdivider. The amount so advanced will be refunded to the subdivider when 50% of the estimated total telephone services are connected within the subdivision during a period of five years from date of agreement. The subdivider shall notify the Company in writing when the 50% hook-up has been attained. Final evaluation will be made by the Company.

B. TEMPORARY OR SPECULATIVE SERVICE

1. Line extensions and/or additions to provide service to an applicant engaged in temporary or speculative business will be made on the condition that applicant pays to the Company the total cost of the construction and removal of the line necessary in furnishing the service, less the salvage value of the material used.
2. If a Subscriber maintains for thirty-six consecutive months a service installation which was originally established on a temporary or speculative basis, and if his or her business or operation at the end of that time has proven its permanency to the satisfaction of the Company, there will be refunded to the Subscriber an amount equal to the difference between the payment made and the normal line extension charge which would have been applicable at the time the Subscriber's service was installed.
3. In no event shall service installation be classed as temporary or speculative for more than six years. Refund provisions apply at the end of not more than six years.

C. SAVING CLAUSE

1. Arrangements may be made, other than as provided for above in this schedule, in the following cases subject to prior authorization of the Washington Utilities and Transportation Commission.
2. Where the applicant requests a particular type of construction or a specific route for extensions to meet the applicant's special requirements and where the construction or route so requested differs from the normal standards of the Company and is not required by law.
3. Line extensions involving underground crossings of railroads, highway or power lines, submarine cable, or along river crossings.

LONG DISTANCE MESSAGE RESTRICTION

A. RATES

	<u>Monthly Rate</u>
Long Distance Message Restriction - Residence	\$2.00
- Business	\$3.00

B. CONDITIONS

1. Long Distance Message Restriction - Local Exchange Service is an arrangement which permits Local Exchange Service line users to dial local service area calls but prevents the origination of long distance calls.
2. Long Distance Message Restriction - Local Exchange Service is provided for use only on individual network access Line service and only where the Customer has other network access Line service on the same premises arranged for unrestricted use of the telecommunications network.
3. The acceptance of collect call messages or third party billed calls is not restricted by this arrangement.

VACATION SERVICE RATES

A. RATES

	<u>Monthly</u>
Per Access Line	1/2 the Access Line Rate

B. CONDITIONS

1. Upon request from a Subscriber having any class of exchange service, except service stations, the service may be suspended for a period of one month or more. No outward or inward service is provided during the period of suspension. Only one period of suspension of not to exceed four months is allowed in any calendar years.
2. If the period of suspension exceeds four months, at the option of the Company the service may be disconnected and nonrecurring service connection charges will be made for reconnecting service.
3. Temporary suspension of service may begin and terminate only at the beginning and ending of any given month, and providing adequate notice is given to make changes in the billing system. That is, vacation rates are not subject to pro-ratio computations.
4. Bills are rendered at regular billing dates during the period of suspension and are due and payable when rendered; or the total amount of the expected suspension charges may be paid at the beginning of the suspension.
5. If the Subscriber has not made further arrangements with the Company when the paid-for suspension service expires, at the option of the Company the Subscriber's service may be discontinued.
6. Non-recurring service connection charges will be made for reconnecting service.

COMMUNITY VOLUNTEER FIRE REPORTING SYSTEM

A. RATES

	<u>Monthly Rates</u>	<u>Installation or Move Charge</u>
Basic system including one main system	\$5.00	Applicable Non-Recurring Charges
Additional stations, each (Up to a total of 14)	\$5.00	Applicable Non-Recurring Charges
Maximum Bill per Month	\$60.00	

B. CONDITIONS

1. The service offered in the rate preceding is designed for use by unattended volunteer fire departments. A party calling the listed fire reporting number activates a conference circuit which rings volunteer firefighters' telephones, enabling the caller to report the fire or emergency to the answering firefighters.
2. Remote answering terminals permit individuals away from home, upon hearing the emergency siren, to call a designated telephone number which will connect them to the emergency reporting system. This feature requires a non-published one-party business line. It will handle up to three simultaneous calls.
3. The siren control circuit is a private line, suitable for supervisory control, from the emergency reporting system common equipment to the siren.

CONCURRENCES

NETWORK ACCESS AND TOLL SERVICE

A. "WECA Tariff":

By this reference thereto, the Company, for the purpose of providing intrastate access service, hereby concurs in Washington Exchange Carrier Association Tariff WN U-2 filed with the Washington Utilities and Transportation Commission (the "WECA Tariff") as hereby modified under the heading "Modifications," and excepting therefrom those portions thereof set forth under the heading "Exceptions," and substituting therein the rates and charges set forth below under the heading "Substituted Rates and Charges." Except as otherwise provided herein, the regulations, terms, conditions, rates and charges applicable to the provision of Switch Access Service, Special Access Service and other miscellaneous services provided by the Company to Intrastate Customers ("ICs") are the same as those in the WECA Tariff. The Company's provision of service as set forth in the WECA Tariff is specifically intended to provide exchange network access to ICs for their own use or in furnishing their authorized intrastate services to end users, and for operational purposes directly related to the furnishing of their authorized services, and no other. Operational purposes include testing and maintenance of circuits, demonstration and experimental services and spare services. Telephone exchange services required by the ICs for their individual administrative use are furnished under other applicable schedules of this tariff. The Company will determine whether the access rates and charges specified in the WECA Tariff (including the substitute rates and charges set forth in this schedule) or the rates and charges in other schedules of this tariff apply, based on the use of the facilities involved by ICs.

CONCURRENCES (Continued)

- B. The Company concurs in the rates, rules and regulations as filed by Qwest Communications, Inc. with the Washington Utilities and Transportation Commission for the following:
1. Message Toll Telecommunications Service
 2. Wide Area Telecommunications Service
 3. Private Line Service and Channels
- C. The Company limits the above concurrence to only those services not specifically covered in its own tariff as filed with the Washington Utilities and Transportation Commission.
- D. The Company extends this concurrence to changes which may be made, subsequent to the effective date of this filing by Qwest Inc.
- E. The Company hereby expressly reserves the right to cancel and make void any portion of this statement of concurrence at any and such time as it appears that such cancellation is to the best interest of the Company.
- F. In addition, for purposes of calls placed to numbers outside of the local calling area, but within the LATA, except for collect and third number billed calls (sent collect), from Public or Semi-Public, coin or coinless, telephones, the Company concurs in Tariff WN U-31, Schedule 5, Sections 5.5.1.B.5; 5.5.1.B.6; 5.5.1.C (non-local message rate only); 5.5.2.C.2 and 5.5.3.C of Qwest, Inc. filed with the Washington Utilities and Transportation Commission, together with amendments and successive issues thereof.
