October 26, 2010

Dear Secretary Danner,

Enclosed please find revised tariff pages and worksheets for Nooksack Valley Disposal, Inc., permit G-166. This is an adjustment to the recycling credit as detailed in WAC 480-70-351.

We have made the annual review to the Recycling Credit portion of Item 100. This adjustment is an elimination of a debit and an increase of credit to residential recycling customers as a result of a calculation of the recycling tracker using the last twelve months of recycling commodity values. The current **debit** is \$.54 charge per customer per month. The proposed **credit** is \$.46 per customer per month. This will result in a **decrease** in rates to our customers. The expected impact to the company is a decrease in revenue of \$26,667. We have requested an effective date of December 1, 2010, the date the old rates expire. (WAC 480-70-262)

Notice will be given to our customers and to the Whatcom County Council at the time of our next billing, after rates have been approved.
