

AVISTA CORPORATION  
dba Avista Utilities

WASHINGTON  
RULES AND REGULATIONS

22. LOAD MANAGEMENT PILOT PROGRAMS:

In order to evaluate load management innovative technologies or processes, the Company periodically conducts limited-scale pilot programs. The Company will maintain and make available complete pilot program descriptions as they are created and approved. The pilot program description list will enumerate eligibility requirements, services provided by the program, funding, and measure analysis criteria. Services provided under the pilot programs are subject to the provisions of Schedule 70, Rules and Regulations, and are not subject to demonstration of energy efficiency cost effectiveness in the short term. This rule expires on October 31, 2016.
