RE: Telecom Management, Inc. d/b/a Pioneer Telephone
Original Registration Docket No. UT-041341

Dear Sir or Madam:

Please allow this letter to serve as our request for expansion of the current authority to provide telecommunications services issued to Telecom Management, Inc. d/b/a Pioneer Telephone ("Pioneer") to include limited facilities-based local exchange services (in order to purchase unbundled elements from the ILEC, as allowed).

Attached as Exhibit A are the requisite financials of Pioneer evidencing their ability to provide the services requested herein. Confidential treatment per WAC 480-07-160 is requested for Exhibit A, as Pioneer is a privately-held company, and public disclosure of its contents would place the applicant at an unfair business disadvantage. Public disclosure of the information contained herein identified as confidential would reveal information to the public and Pioneer's actual and potential competitors regarding data which Pioneer considers highly proprietary and confidential. An original and twelve (12) copies of the confidential Exhibit A are enclosed in a sealed envelope marked Confidential.

Should you have any questions, please do not hesitate to contact me.

Sincerely,

Leon Nowalsky *ln*
