WATER SERVICE
RULES AND REGULATIONS

Rule 14-Discontinuance of Service (cont'd)

Required notice prior to disconnecting service: The Company must serve a written disconnection notice on the customer, either by mail, or, at the company's option, by personal delivery of the notice to the customer's address, attached to the primary door.

A minimum of eight (8) business days' written notice will be given a customer before service is discontinued, except in the case or danger to life or property. Before disconnecting service, the utility must in addition to the first (1st) notice as described above, provide a second (2nd) notice by one of the two options listed below.

- (1) Delivered notice – The Company must deliver a second (2nd) notice to the customer and attach it to the customer's primary door. The notice must contain a deadline for compliance that is no less than twenty-four (24) hours after the delivery that allows the customer until 5:00 p.m. of the following day to comply, or
- (2) Mailed notice- The Company must mail a second (2nd) notice, which must include a deadline for compliance that is no less than three (3) business days after the date of mailing if mailed from within the State of Washington.

Disconnection notice will expire after (10) business days from the first day that the Company may disconnect service, unless other mutually agreed upon arrangements have been made and confirmed in writing by the company. If mutually accepted arrangements are not kept, the company may disconnect service without further notice.

When a utility employee is dispatched to disconnect service, that person must accept payment of delinquent account and disconnect visit charge if specified in Schedule X. If amount owing is tendered in cash, utility employee will not be required to dispense change for excess of the amount due and owing. Any excess payment will be credited to the customer's account. The utility will restore service when the cause of discontinuance has been removed and payment of all proper charges due from customer have been made.

The utility will permanently discontinue service and physically remove the service connection when (N)

- (1) requested by the customer, or (2) when no payment has been made on the account for 18 consecutive months in accordance with the utility's policy regarding removal of service for long term non-paying customers. If specified in Schedule X, a Service Connection Removal Fee will apply. Once the service connection is so removed, it shall be regarded as never having existed. Thus, re-establishment of service to subject property will require purchase of a new service connection, with payment of all applicable tariffed fees, including Service Connection Fee (Schedule 10) and Facilities Charge (Schedule 5).
