

Affiliated Interest	Relationship	Terms	Volume	Length of time of Relationship
Rabanco Recycling	Recyclables processing	\$51.81 / ton – Comm \$68.39 / ton – Resi/MF	~15,000 tons / year	20+ Years
Rabanco Recycling	Yardwaste disposal	\$53.50 / ton	0-100 tons / year	20+ Years

The Rabanco Recycling MRF is the primary recycling facility for the entire Seattle metropolitan area and best suited to handle the volumes generated by Lynnwood Disposal and other area haulers. Recyclables collected on Commercial and Residential routes are delivered to the facility where they are separated and baled for sale to commodity markets.

In 2013 no yardwaste was delivered to Rabanco Recycling as their primary disposal site, Cedar Grove (and Bailey's YW, a Cedar Grove disposal site) did not experience capacity issues that resulted in turning Lynnwood drivers away.
