Re: Advice No. 2014-26 - Confidential Exhibits and Workpapers

Dear Mr. King:

Enclosed please find Confidential Exhibit ___ (PGA-2), Confidential Exhibit ___ (Tracker-1) and confidential workpapers associated with the above noted filing. These are routine confidential documents that Puget Sound Energy, Inc. ("PSE" or "the Company") has typically included. Please note that these exhibits and the workpapers include commercially sensitive information resulting from specific pricing terms of individual gas supply contracts.

Pursuant to WAC 480-07-160, the Company requests that the enclosed exhibits and workpapers be accorded confidential treatment. The Company's ability to effectively negotiate favorable gas supply agreements and conduct wholesale trading would be impaired by disclosure of this information.

As required by WAC 480-07-160, the Company identifies the following entities which might be directly affected by disclosure of the confidential information: all of the Company's sales customers, as impairment of the Company's negotiating ability in the wholesale market could translate to higher rates; and the Company's shareholders, as the Company's ability to provide competitive service would be impaired. In accordance with WAC 480-07-160, the exhibit and workpapers submitted herewith have been marked "Confidential per WAC 480-07-160," printed on yellow paper and sealed in an envelope clearly marked Confidential.

Please contact Paul Schmidt at (425) 462-3180 for additional information about these exhibits and the workpapers. If you have any other questions, please contact me at (425) 456-2110.

Sincerely,

Ken Johnson
Director, State Regulatory Affairs
