

Washington Utilities and Transportation Commission

June 1, 2015

Dear Sir or Ma'am:

re: Penalty Assessment

What I would like to do is change my household goods permit to a common carrier permit. Hopefully the commission will consider reducing my penalty for not filing the annual report.

I ask for a commission decision solely based on the information I will provide to reduce the penalty. The permit has been in the family for over 60 years, but no one in the family has any desire to use it. I work on an island in south east Alaska in the spring & summer and have my mail sent to me from my home. This year I forgot to file the report. I do not move any household goods, but I do move some of my machinery and equipment in the winter in Washington State with one of my trucks that I own.

Sincerely,

Larry Clerget
