I am sending you the total penalty amount so that we don't receive any further charges, but I would like to request a discount in the fee. We haven't billed this job for 2 years, we only keep the solid waste permit in hopes that we can again do this job at some point in the future. I was unaware of due date on the form because we haven't done this kind of thing for quite a while - also I responded the same day I was notified that I was not in compliance. With that in mind I would like to request relief from this charge, as it is quite a heavy burden for an account collecting zero for two years.

Sincerely,

Nicki Groen
