FIRST REVISED SHEET NO. W-101
CANCELLING
ORIGINAL SHEET NO. W-101

ILIAD WATER SERVICE, INC.

SCHEDULE 101 - ALL SYSTEMS

A. Alder Lake and Cascade Crest Service Connection Charge*

(T)

<u>Size of Service Connection</u>	<u>Service Connection Charge plus associated Federal Income Tax Recovery</u>
Up to 3/4" service	\$350.00 **
Larger than 3/4" service	Time and Material plus Federal income tax recovery

1. "Service Connection" as used herein includes the installed pipe from a water main of adequate capacity to the applicant's property line and the installation of a meter box and fittings necessary to provide the requested water service. Paving repair costs, when applicable, are in addition to the Service Connection Charge. Cost of a meter, if any, will be borne by the utility.
2. Where an existing water main must be enlarged to furnish an adequate supply of water to the applicant(s) and present customers, the replacement cost of the water main and all costs associated with said replacement shall be borne by the applicant(s) requesting the new service(s).
3. All work will be commenced upon execution of a written agreement between the utility and the applicant and payment by the applicant, in advance of construction, of all contracted costs. The Service Connection Charge is not refundable.

* Except where a separate service connection change is required by recorded covenants, in which case such other charge shall apply.

** This charge includes recovery of federal income taxes.

SCHEDULE 101 (Cont.)

B. Lower Service Connection Charge

Applicable

Applies to all new applicants for properties not currently served for the Utility only when surplus system capacity is available and a direct connection can be made to an existing main that has adequate hydraulic capacity.

Conditions

1. A charge will be made the first time a customer's service pipe, 3/4-inch or smaller, is connected to the Utility's main. This charge does not include the cost of a meter, or its installation. A meter will be furnished, installed and maintained by the Utility without direct cost to the customer.
2. The Utility owns and maintains all materials involved in making a service connection.
3. The service connection charge must be paid before the water is turned on.
4. In addition, when it is necessary to cross an existing road (by boring or cutting) the cost of the crossing and road permit fees or other charges will be in addition to the Service Connection Charge.
5. Meter will be place in a suitable meter box located at the customer's property line, except when this is not practicable. The meter will be installed upon the customer's premise in some convenient location approved by the Utility where the meter will at all times be accessible for reading, inspection and testing.
6. Service Connections will be installed within 7 days from payment, unless prior arrangements in writing are agreed upon by both the customer and the Utility.
7. Any Service Connection larger than 3/4-inch service requires a "Labor and Material Contract."

SCHEDULE 101 (Cont.)

D. Lower Water System Facilities Charge

Applicable

Applies to all new applicants for properties not currently served and within the Commission Service Area (as defined in the tariff) for the Utility only when surplus system capacity is available and a direct connection can be made to an existing main that has adequate hydraulic capacity.

Conditions

1. The Utility will own and maintain all material involved in the allocation of water service.
2. The Water System Facilities Charge will be in addition to any line extension, service connection, or any other charges that may be provided elsewhere in this tariff.
3. The Water System Facilities Charge will be made one time only at which time the applicant's property is brought into the Water Service Area. If further subdivision of the property is made at a later date, each newly created lot will be subject to an additional facilities charge upon application for water service. If service is greater than residential equivalent, then multiple equivalents may be charged.
4. Exemptions:
 - a. Any end use customer covered by an existing written contract, which specifies that, no charge or a lower charge will be paid.
 - b. Any end use customer connecting to a water system, which was contributed to the Utility or for which the Utility paid a nominal amount.

Charge

Rate

Clallam County PUD Capital Facilities Charge

*

*Rate changes annually and is established by Clallam County PUD. Rate as of September 23, 2015 is \$4,385. Please contact the Utility to determine rate in effect. Payment is made by check written to Clallam County PUD.

SCHEDULE 101 (Cont.)

I. SE Fragaria Road Line Extension

Applicable

To the following parcels on SE Fragaria Road: 17-01; 16-01; 15-02; 38-03; 38-04; 38-05; 38-01; 38-0; 37-02; 37-03; 37-0; 36-03; 36-02; 36-01.

Description of Charge

A water system line extension is being constructed to serve up to fourteen lots on SE Fragaria Road. Nine lot owners have agreed to pay the entire cost of the line extension subject to obtaining a latecomer's provision. Each of the nine lot owners has agreed to pay the sum of \$10,245.00 for a total of \$92,204.00. If there are cost saving during actual construction due to the ability to share trenches with the sewer utility, the total amount may be reduced with a credit issued to each of the nine initial lot owners participating in the construction charge.
