The Washington Utilities and Transportation Commission (Commission) believes you have violated Revised Code of Washington (RCW) 19.122.030(2) by failing to provide the required notice to a one-number locator service not less than two business days before excavating. RCW 19.122.070(1) states, in part, that violations of any provision of the chapter are subject to a civil penalty of not more than one thousand dollars for an initial violation and not more than five thousand dollars for each subsequent violation within a three-year period.

The Commission reviewed findings and recommendations made by the Washington State Dig Law Safety Committee (Safety Committee) and hereby notifies you that it is assessing a penalty against you in the amount of \$1,000 on the following grounds:

On April 18, 2018, the Safety Committee heard the complaints for cases 18-013 and 18-014 against Bulldog Concrete Services, LLC (Bulldog Concrete or Company) regarding potential violations of the Washington state Dig Law, RCW 19.122 that occurred in 2018. The complainant in this case was Puget Sound Energy (PSE). The Safety Committee determined that Bulldog Concrete committed the following violations:

- Two violations of RCW 19.122.030(2) for failing to request locates prior to excavating.

The Safety Committee recommended that the following penalty be assessed against Bulldog Concrete:

- \$1,000 penalty for one violation of RCW 19.122.030(2); and
- The opportunity to suspend, and then ultimately waive, \$800 of the penalty if the owner of Bulldog Concrete: 1) completes National Utility Contractor Association (NUCA) Dig Safe Training within six months of the issuance of a penalty assessment by the Commission, and 2) incurs no additional dig law violations within 12 months.

Commission regulatory staff (Staff) reviewed the Safety Committee's determination and agrees with their conclusion. Staff found that Bulldog Concrete committed two violations of RCW 19.122.030(2). Staff based this decision on the following information provided by the Safety Committee:

**Case 18-013**

The complainant, PSE, alleges that on Jan. 16, 2018, Bulldog Concrete failed to request utility locates prior to excavating at 16628 133<sup>rd</sup> St. SE, in Monroe, WA. PSE Damage Prevention Field Representative Roger Arrington observed a Bulldog Concrete crew excavating at the above address. Mr. Arrington proceeded to contact the Company owner, Tomas Castellon, to advise him of the potential violation of digging without locates. A check was done with the one-call ticket management database and it was determined that Bulldog Concrete had not requested a utility locate for this address. Mr. Arrington proceeded to take pictures of the job site, which were ultimately submitted to the Safety Committee for review.

Staff investigated this referral from the Safety Committee and found that Bulldog Concrete did not submit a utility locate request for this location. Staff determined that Bulldog Concrete committed one violation of RCW 19.122.030(2) by failing to request a locate prior to excavating.

**Case 18-014**

PSE alleges that on Jan. 16, 2018, Bulldog Concrete failed to request a utility locate prior to excavating at 16604 133<sup>rd</sup> St. SE, in Monroe, WA. PSE Damage Prevention Field Representative Roger Arrington again observed a Bulldog Concrete crew excavating at the above address. This was on the same date and in the same neighborhood as the violation in Case 18-013. A check was done with the one-call ticket management database and it was determined that Bulldog Concrete had not requested a utility locate for this address. Mr. Arrington proceeded to take pictures of the job site, which were ultimately submitted to the Safety Committee for review.

Staff investigated this referral from the Safety Committee and found that no utility locate request was submitted by Bulldog Concrete for this location. Staff determined that Bulldog Concrete committed one violation of RCW 19.122.030(2) by failing to request a locate prior to excavating.

Staff relied upon the information provided by PSE and Bulldog Concrete to the Safety Committee for this investigation. The documents for this case included multiple photographs of the excavation areas. Staff's research also indicates that Bulldog Concrete has a relatively small history of requesting utility locates. Since Jan. 1, 2017, Bulldog Concrete has only requested a total of 14 utility locates in the state of Washington.

Staff's investigation concurred with the Safety Committee's recommendation. Accordingly, Staff recommends the Commission assess a \$1,000 penalty against Bulldog Concrete for one violation of RCW 19.122.030(2) for failing to provide the required notice to a one-number locator service not less than two business days before excavating. The recommended penalty is as follows:

- No Penalty for one violation of RCW 19.122.030(2), which occurred on Jan. 16, 2018 (Case 18-013); and
- \$1,000 penalty for one violation of RCW 19.122.030(2), which occurred Jan. 16, 2018 (Case 18-014); and

- The opportunity to suspend, and then ultimately waive, an \$800 portion of the penalty subject to the following conditions: 1) the owner of Bulldog Concrete completes National Utility Contractor Association (NUCA) Dig Safe Training within six months of the issuance of a penalty assessment by the Commission, and 2) Bulldog Concrete incurs no additional dig law violations within 12 months.

Pursuant to RCW 19.122.150(3), the Commission has considered the Safety Committee's determination and adopts its recommendation. The Commission assesses a penalty of \$1,000 against Bulldog Concrete for the single violation of RCW 19.122.030(2). The Commission will also provide the opportunity to suspend an \$800 portion of the penalty subject to the conditions that (1) Bulldog Concrete's owner completes NUCA Dig Safe Training within six months of the issuance of this penalty assessment; and (2) Bulldog Concrete commits no further violations of RCW 19.122 within the next 12-months. The Commission will waive the suspended penalty amount of \$800 if Bulldog Concrete complies with both conditions.

The information the Safety Committee provided to the Commission, if proved at a hearing and not rebutted or explained, is sufficient to support the penalty assessment.

Your penalty is due and payable now. If you believe the violation did not occur, you may deny committing the violation and contest the penalty assessment through evidence presented at a hearing or in writing. The Commission will grant a request for hearing only if material issues of law or fact concerning the violation require consideration of evidence and resolution in a hearing. Any contest of the penalty assessment must include a written statement of the reasons supporting that contest. Failure to provide such a statement will result in denial of the contest.

If you admit the violation but believe there is a reason for the violation that should excuse you from the penalty, you may ask for mitigation (reduction) of this penalty through evidence presented at a hearing or in writing. The Commission will grant a request for hearing only if material issues of law or fact require consideration of evidence and resolution in a hearing. Any request for mitigation must include a written statement of the reasons supporting that request. Failure to provide such a statement will result in denial of the request.

If you properly present your request for a hearing and the Commission grants that request, the Commission will review the evidence supporting your dispute of the violation or application for mitigation in a Brief Adjudicative Proceeding before an administrative law judge. The administrative law judge will consider the evidence and will notify you of his or her decision.

**You must act within 15 days after receiving this notice** to do one of the following:

- Pay the \$1,000 amount due; or
- Pay \$200 of the total penalty and notify the Commission that you accept the offer to suspend, and ultimately waive, the remaining \$800 penalty subject to the conditions that Bulldog Concrete's owner completes NUCA Dig Safe Training within six months of the issuance of this penalty assessment; submit documentation of that attendance to the Commission within five (5) days of attending the training; and commit no further violations of RCW 19.122 within the next 12-months; or
- Request a hearing to contest the occurrence of any or all of the violation; or

- Request mitigation to reduce the amount of the penalty.

Please indicate your selection on the enclosed form and submit it electronically through the Commission's web portal **within FIFTEEN (15) days** after you receive this notice. If you are unable to use the web portal, you may submit it via email to [records@utc.wa.gov](mailto:records@utc.wa.gov). If you are unable to submit the form electronically, you may send a paper copy to the Washington Utilities and Transportation Commission, Post Office Box 47250, Olympia, Washington 98504-7250.

**If you do not act within 15 days**, the Commission may refer this matter to the Office of the Attorney General for collection. The Commission may then sue you to collect the penalty.

DATED at Olympia, Washington, and effective May 7, 2018.
