RE: Avista's Transportation Electrification Plan

Dear Commissioners:

The City of Colville was involved in Avista's pilot program to have EV chargers installed in the City. We have two electric vehicle charging stations installed in two of our public parking lots. We have found that the electric charging stations are being used on a regular basis and help meet our City Council and Strategic Plan Goals.

- Colville is a community where people want to live and work.
- Colville effectively delivers services.
- Provide a high level of quality public services to the community.
- Improve the appearance of Colville's built environment.

The City of Colville fully supports Avista's Transportation Electrification Plan and looks forward to working with them in the future.

Sincerely,

Ralph K. Lane, Jr.  
Mayor

CC: Randall Farley, P.E., Avista
