(Set for April 6, 2021, at 9 a.m.)

RE: Relating to implementing CETA's equity mandates and developing customer benefit indicators, Docket UE-210147

WEBINAR INSTRUCTIONS:

On April 6, 2021, the Washington Utilities and Transportation Commission (Commission) will hold a workshop to discuss implementation of equity and customer benefit provisions of Commission rules regarding integrated resource plans (IRPs) and clean energy implementation plans (CEIPs) and to hear status updates from utilities and stakeholders related to their progress implementing the public participation processes to ensure their timely development. In particular, the workshop will provide an opportunity to discuss development of customer benefit indicators, which utilities must include in their CEIPs.

Due to limitations on in-person gatherings due to the ongoing COVID-19 pandemic, the Commission will be conducting the stakeholder workshop virtually. Although parties may participate by telephone, participation by computer will make it easier to facilitate the discussion, which will include interactive discussions using Microsoft Teams breakout rooms.
