

**Important Notice for Washington  
Electric Customers  
May 2021**

On March 31, 2021, Avista filed a request with the Washington Utilities and Transportation Commission (Commission) to increase electric rates to qualifying customers effective July 1, 2021. The request reflects a rate adjustment to decrease the present rebate customers are receiving related to Renewable Energy Credits (“RECs”).

Currently, Avista is currently rebating to customers approximately \$1.8 million. That rebate expires June 30, 2021. In the present filing, Avista is proposing to adjust the REC Revenue rebate to reflect a decrease in the projected net REC revenues for the July 2021 – June 2022 time period. That amount is \$0.9 million. The net effect of the new and expiring REC rebate is an increase in revenue of approximately \$0.9 million, or 0.2%. The change in the rate credit has no effect on Avista’s net income.

**Change in Rates** - The average residential customer using 914 kWhs per month will see an increase of \$0.16 per month, or approximately 0.2%. The present bill for 914 kWhs is \$89.80 while the proposed bill is \$89.96. The actual change will vary based on customer usage. The percentage change for electric customers varies by rate schedule and depends on how much energy a customer uses. If approved, customers would see the following rate adjustments:

**Proposed Schedule 1 Residential Rates:**

Electric Service	Current Bill Rate	Proposed Change	Proposed Bill Rates
Basic Charge	\$ 9.00		\$ 9.00
