EXHIBIT 3

BROADBAND PLAN

This Broadband Plan is being submitted by Pioneer Telephone Company in compliance with RCW 80.36.650(3)(a)(ii) and WAC 480-123-110(1)(d). Under the terms of the legislation incorporated into RCW 80.36.650(3), a recipient of support from the state Universal Communications Services Program is to submit a broadband plan showing how the provider will provide, maintain, or enhance broadband services in its service area. As set out in WAC 480-123-110(1)(d), the broadband plan is to include specific elements, but only to the extent applicable to that particular broadband plan. The broadband plan does not have to include all elements but it can include any of the following elements: (1) a multi-year investment plan; (2) specific projects that are projected to provide or enhance broadband service at speeds required by the Commission or the Federal Communications Commission; (3) a plan for maintenance of broadband services in the provider's service area; (4) a description of how the provider will enhance broadband services in its service area; and (5) any other information that the Commission may request to assist in the Commission's review and analysis of the provider's broadband plan. Where there are specific projects, the project information is to include an estimated timeline, geographic location, number of locations passed, and upload and download speeds that are projected to be produced by the project.

Pioneer Telephone Company has constructed sufficient facilities for it to fall into either criterion three or criterion four of WAC 480-123-110 and as a result has constructed substantial broadband infrastructure throughout much or all of its service territory. This means that the company is looking for program support to allow it to continue to provide telecommunications services and broadband services at the levels that are provided today, with enhancements becoming available where appropriate. Pioneer Telephone Company's plan anticipates for 2022 planned investment and expenses to be projected at [REDACTED] for gross capital expenditures, [REDACTED] for repair and maintenance expenses and [REDACTED] towards the outstanding payable amount of [REDACTED] to the fiber-to-the-home construction vendor.

The foregoing Broadband Plan was adopted by Pioneer Telephone Company on July 30, 2020.
