Mark L. Johnson
Executive Director and Secretary
Washington Utilities & Transportation Commission
621 Woodland Square Loop SE
Lacey, WA 98503

Dear Mr. Johnson:

Attached for filing with the Commission is an electronic copy of Avista Corporation’s, dba Avista Utilities’ (Avista or “the Company”), filing of its proposed revisions to the following electric tariff sheet, WN U-28:

Eleventh Revision Sheet 92 Canceling Tenth Revision Sheet 92

The purpose of this filing is to increase the amount of the Company’s electric “Low Income Rate Assistance Program” (LIRAP) funding by 7 percent in compliance with Commission Order No. 09, in Docket Nos. UE-190334, UG-190335, and UE-190222 (*Consolidated*).¹ By way of background, Order No. 05 in Docket UE-150204 et. al. established a five-year plan and true-up schedule which required Avista to file revisions to Schedule 92 by August 15th of each year, to increase LIRAP funding by the greater of 7 percent, or 2-times the amount of any residential base rate increase, beginning October 1, 2016 with annual funding increases to continue through October 1, 2019. Order No. 09, in Docket UE-190334 extended the five-year funding plan through Avista’s next general rate case (GRC). Also included in this filing is a true-up of the estimated revenues collected for LIRAP to the actual collections for the prior October to September LIRAP program year.

¹ Per the Settlement Stipulation approved via Order 09 in Docket UE-190334 et.al., LIRAP funding will increase annually by 7% or 2-times the residential base rate increase, whichever is greater.

UTIL. AND TRANSP.
COMMISSION

Further extension of the current LIRAP funding plan is presently before the Commission in Dockets UE-200900, UG-200901, and UE-200894. Should the Commission's determination in that docket alter the 7% LIRAP funding level incorporated in this tariff filing, the Company will work with interested parties to incorporate those changes either into this tariff filing, or as part of the compliance filing in the GRC proceeding, depending on the timing of the general rate case final order.

Avista requests the Commission approve the proposed increase in rates and charges in Schedule 92 with an effective date of October 1, 2021. The estimated annual revenue change associated with this filing is an increase of approximately \$0.7 million, or an increase of 0.1% in overall billed rates. The proposed rate increase will have an average monthly bill impact of \$0.12 for residential electric customers using 914 kWhs, or 0.1%. If approved, the average monthly bill would increase from \$84.48 to \$84.60.

Pursuant to WAC 480-100-194(1), the Company will provide notice to customers, by way of a bill insert, in the August/September 2021 billing cycle, as well as a posting on the Company's website coincident with the date of this filing. Attached are the Company's workpapers supporting this proposal.

Please direct any questions regarding this filing to Joe Miller at (509) 495-4546.

Sincerely,

/s/ Patrick Ehrbar
