

TV-220134

I am requesting mitigation on the Penalty assessment: TV-220134 Penalty amount:\$25,600. I the owner of PNW Moving & Delivery LLC writing to request a mitigation I will list out the reasons why mitigation should be considered.

First, Past year has been hard for business and personally in 2019 my father in law passed away. I understand this doesn't give me a right to not focus on compliance after I was just audited by UTC in 2019 then that same year I had a first born son. Causing me to focus on making sure I am bringing in money because we went to one income. Then 2020 brought new challenges of just trying to stay a float, unfortunately the last thing on my mind was making sure all documents are in order, it was to survive. I wasn't able to have a business build up a savings to cover any unforeseen expenses,leaving the business running on tight margins.

Second,the business is working on bringing everything into compliance and that causing strain on company cash flow. For example the company filled its annual report for 2019 and 2020 paying around \$2,000 in fees. Still don't know where the money will come to pay for additional late filing fees of \$2,000. Aslo from the last audit the fine needs to be paid of additional \$1,950(Docket TV-200421 and TV-200419) bringing the total of \$6,000 in fees, onces this is payed leaves no room for any additional payments.

Last reason, I am working on a safety management plan and will have it turned in to Jason Sharp by April 30th.

Thank you for your understanding, I hope to be able to mitigate this because PNW moving & Delivery offers great service to the community. We pride ourselves on customer service and at the moment seem to not be able to transfer it to the compliance part of the business.

Dmitriy Satir,
