and property damage insurance covering )  
equipment. ) Order Suspending Certificate  
) No. C-1072  
)  
) EDWARD MCINTIRE  
..... ) D/B/A EAGLES CONNECTION

1 We previously gave notice to this carrier that the certificate listed above would be suspended if acceptable proof of liability and property damage insurance was not filed with this commission. The commission has not received proof of insurance.

2 Therefore, this order suspends the auto transportation certificate listed above, effective from the service date of this order. Suspension means that the carrier must cease all operations associated with this certificate until the commission receives acceptable proof of liability and property damage insurance and enters an order lifting the suspension and authorizes the holder to resume operations, or until the permit is cancelled. If the carrier fails to provide acceptable proof of liability and property damage insurance within 30 days, the commission will hold a hearing to cancel the certificate. Cancellation means the carrier may not operate without first applying for and obtaining a new certificate.

ORDER

3 The commission hereby suspends the auto transportation certificate specified above. If the commission does not receive proof of insurance as specified in RCW 81.68.060 within 30 days, the commission will hold a hearing to cancel the certificate. The suspension under this order will be effective until the commission receives proof of insurance and enters an order lifting the suspension, until the carrier voluntarily surrenders the permit, or until the Commission enters an order after hearing cancelling the permit, whichever occurs first.

DATED at Olympia, Washington and effective March 10, 2006.
