COMMISSION

In Docket TR-171142, the Commission approved installation of crossing gates at USDOT 104520Y by Order 01, effective April 19, 2018. The Order, in §12(3) states:
Petitioner must notify Commission Staff within 30 days upon completion of this project.

WSDOT did not inform the Commission of completion of the project. However, a review of Commission records shows that Rail Safety staff inspected the crossing in June 2018. Records and photographs confirm that installation of crossing gates is complete and in compliance with Order 01 in TR-171142.

This matter is now closed.
