PC Data Request 22

PC Data Request 22

Re: 230482-PAC-PCAM-WP3-6-15-23.xlsx tab “Net Position Balancing”.

Please provide in Excel format for each of the months in 2022, a list of transactions that underly the results in rows 4, 5, 8, and 9 (Short Term Firm Sales Dollars and MWh, Short Term Firm Purchases (Dollars and MWh)). In your response please provide at least the columns (data fields) in tab 2022 of Mullins, Exh. BGM 10C.

Response to PC Data Request 22

Please refer to Confidential Attachment PC 22. Note: there is a difference of 1,100 Washington Inter-Jurisdictional Cost Allocation Methodology (WIJAM) allocated megawatt-hours (MWh) between this attachment and the allocated MWh provided in the Company’s application and direct testimony filed in June 2023 due to corrections made to the data after the filing. The corrections only impacted MWh and did not impact dollars in total-Company net power costs (NPC). The difference would lower the total short-term firm (STF) purchase MWh allocated in the WIJAM and increase the dollars per MWh (\$/MWh) net position balancing adjustment, which would increase the Company’s request for recovery in its initial application.

Confidential information is provided subject to a confidentiality agreement executed between PacifiCorp and Public Counsel.
