Re: Relating to Electricity Markets and Compliance with the Clean Energy Transformation Act, Docket UE-210183

TO ALL INTERESTED PERSONS:

On November 10, 2021, the Washington Utilities and Transportation Commission (Commission) issued a Notice of Opportunity to File Written Comments on Draft Rules and Notice of Joint Workshops (Notice), which invited interested persons to comment on the draft rules provided with the Notice.

After receiving feedback on the necessity for a clarification, the Commission hereby revises the draft rules to clarify a reference in WAC 480-100-ZZZ (1)(a). The reference previously included only “subsection (c).” WAC 480-100-ZZZ(1)(a) is revised as follows:

(a) Any sale or transfer of electricity from the renewable generating facility, other than a sale or transfer described in subsection WAC 480-100-XXX(2)(c), that specifies the source of the electricity by generating facility, fuel source, or emissions attribute must include the sale or transfer of the associated REC in the same transaction. The included RECs must be from the same generating facility and have the month and year vintage of the electricity.

A copy of the revised rules are attached hereto.
