

Caller	Phone Number	Comments	Comments Collected On (Date)
Mark Biore	1-509-952-8672	My comment as a ratepayer is this is a boneheaded tax made up out of nowhere. As ratepayer by me paying more for electricity, it won't help green or clean energy. All it will do is make me pay more money for my power. It's a fraud tax sham. Making people pay more money for their electricity is not going to reduce CO2 emissions. It's jsut another money grab by inslee who is a complete fool.	9/26/2023
Mike Marquis	(509) 728-0675	Paraphrased comments: "I am curious about the power bill for the same amount of electricity has been going up and up. I'm concern for the poor people in the world - single mos and such. We've had 75 years of dams. Why isn't dams considered green? I'm now spending \$200 a month for electricity. If we all go solar, what are the dams going to do? What's the point of going green? Dams don't put off any pollution that i know of. Why is our electricity doubling in the last three years and why are they pushing solar power when they already generate electricity that is green? that doesn't make any sense." Paraphrased: "I am curious about the power bill for the same amount of electricity has been going up and up. I'm concern for the poor people in the world - single mos and such. We've had 75 years of dams. Why isn't dams considered green? I'm now spending \$200 a month for electricity. If we all go solar, what are the dams going to do? What's the point of going green? Bev Rathbun	(509) 522-3081	Left voicemail: "This is Bev Rathbun and I'm in Walla Walla, Washington. I got your letter about the virtual public comment hearing by the commissioner on September 28th. Well I can't make it to there - I'm too old. But I sure can help you get it passed or whatever you're trying to do. It's to help clear the air or something. I didn't read the back of the letter. Anyway my number is 509-522-3081. Give me a call and let me know if you need my help. And I thank you, because I've been with Pacific Power for 40-50 years. Okay. Thank you." Paraphased comment as collected when I returned the caller's phone call: "I just feel that we need something like that. It's important to have this benefit. I hope it passes."	9/26/2023

Pete

(509) 424-2505; **Paraphrased Comment: "I am against PacifiCorp's plan. My primary concern is that Washington State passed the Clean Energy Plan requiring utilities to have goals to decarbonize, but it seems that we don't have the proper infrastructure to handle this implantation plan." Pete continued to say, "This transition doesn't seem thoughtful to the consumer, which ultimately is stuck paying for these rate increases." "How is this fair for low-income folks?" "This approach doesn't seem like an appropriate way to reach the State's clean energy goals.**

Dear Matt McVee

I've been reading **RECEIVED** letter on the up coming Public hearing Sept. 28, 2023 at 6:00 P.M.

Suggestion with all the empty commercial offices on main st. If P.P.E.L. would open a office back up where people could save a stamp @ you wouldn't have to worry about lawyers & all that nonsense that those people who live in these areas could care less about.

You Pacific has always been a big part of Columbia County and Watsburg, Prescott, Pomeroy Lots of good people here but R.K.A. has tried to take them over and did get a few under the table (Court house & ect; but spent a lot of money getting it.)

They have moved out of area
back to Walla-Walla

This community has a good
history of PFL and great potential
to be a ^{great} community again
Hospital & ect. with a good
partner

P.S. I know the heart beat
of this community and want to
see it come back strong (eg)

thanks

Brian Black
