Ms. Hunter,

On September 24, 2008, the Washington State Utilities and Transportation Commission issued four *Final Orders Granting Petition With Conditions to Modify A Public Highway-Rail Grade Crossing*. These petitions were filed by the Washington State Department of Transportation. Specifically, these petitions are identified by Docket Number and Intersection as follows:

We understand from our Sound Transit partners that these crossings are ready for the UTC inspection and sign-off. Please coordinate this effort with Mr. Robert Borwinkle of Sound Transit. Mr. Borwinkle may be reached at this email address:

Please contact me at either of the phone numbers listed below with any questions.

Thanks.
