Hello UTC-

The pandemic will surely extend beyond this year. Economic recovery will surely take longer. We need to insure that all Washingtonians have access to utilities throughout and beyond this pandemic.

- We want indefinite moratorium on utility shut offs.
- Utility debt erasure to support equity for all poor and low income families. Debt erasure starting near the beginning of the pandemic.
- Institute a 4-6% of income arrearage payment plans for households.

Thank you for supporting our community and addressing docket U-200281 with community member feedback. This is true people-empowered work.

Laura
