Subject: Re: Electric rule-making - net metering rule

Graciela:

Hello! Thank you for the attachments. I hope you can clarify something for me. Regarding the net metering draft rules, is there still opportunity for public comment? If so, what is the preferred method of comment at this time? i.e., would someone send written comments directly to you, or will the net metering draft WAC language be included in Thursday's 10:45 a.m. - 12:00 p.m. discussion regarding "Standards and Metering Rules"? I am assuming the latter, but feeling a bit confused.

Your response would be greatly appreciated!

Thanks.

Danielle
