

VERIZON DATA REQUEST NO. 17: Please indicate whether any other persons who live in the Skyko 2 area have stated or otherwise indicated to you whether they would (or would not) subscribe to wireline phone service if it were available in the Skyko 2 area. If so, please indicate who did so, what they said, and when.

The other petitioners indicated that they would subscribe to wireline phone service when they signed up for the telephone petition.

Bob Wilkes (a part-time resident who owns the cabin and property adjoining my tram landing lot to the north) said to me in a conversation last week that he would definitely get telephone service at his cabin if it were available.

Marlene Stutteville (a part-time resident who owns the adjoining property to the south) wrote to me in an email on 2/15 that she would not.

Mike and Betsy De Lay (part-time residents who own the cabin and property two lots to the south) said to me in a phone conversation on 2/19 that they would probably get telephone service if they decide to keep their property in Skyko 2 (they are in the midst of selling their main home in Bothell and moving to Olympia).

Jan and Dan Dennison (part time residents who own the cabin and property three lots to the south) wrote to me in an email on 2/20 that they definitely would get telephone service at their cabin if it were available.

Ray Brennan (a part-time resident who owns a cabin and property several lots to the north) said to me in a conversation last week at his home that he wouldn't get service due to the cost of the line extension fee.

Sandra and Dan Hemen (part-time residents who own a cabin and property about ½ mile south) said to me in a phone conversation last week that they definitely would get telephone service at their cabin if it were available.
