CONSUMER AFFAIRS

Gentlemen:

Please excuse my longhand, my computer broke.

We (all FOUR - OVER 21 AGE) Object to allowing Waste Connections allowing a rate increase. 85%

If they say the increase is needed because of fuel cost - too bad....

I go to work paying increase fuel cost and never receive increased pay; - so why should they.

Waste connections also charges additional fee every month because they say.

each can is (over weight or over capacity) not always justified - They don't even have a scale. If you'd follow them and see the related statement to the customer you'll see what I mean.

Thank You, NO INCREASE!!!

Sincerely,
Daniel O'Keefe
