**BACKGROUND**

- 1 On April 1, 2010, Puget Sound Energy, Inc. (PSE or Company), filed with the Washington Utilities and Transportation Commission (Commission) a petition requesting review and approval of its Power Cost Adjustment Mechanism Report – PCA Period 8 (PCA Report). PSE filed the PCA Report consistent with the Commission’s Twelfth Supplemental Order approving a settlement in Dockets UE-011570 and UG-011571, in which the Commission approved a Power Cost Adjustment (PCA) mechanism for PSE.
- 2 PSE’s PCA mechanism accounts for differences in the Company’s modified actual power costs relative to a power cost baseline and provides for a sharing of power costs between the Company and ratepayers.<sup>1</sup> The Commission authorized a change in the annual PCA period to a calendar year beginning January 2007, and established that the annual PCA true-up filings were due by the end of each March for the prior PCA calendar year.<sup>2</sup>
- 3 The Period 8 PCA Report covers the calendar year ending December 31, 2009. Since the inception of the PCA mechanism on July 1, 2002, through December 31, 2008, PSE deferred a total of \$1,804,703 in under-recovered power costs. In 2009, a revision was made for the Tenaska Displacement Tax Refund, which established a revised deferred balance of \$1,170,089. During 2009 power costs exceeded the average baseline by \$32,198,323 resulting in was an additional \$6,099,164 deferred cost to customers for a

total of \$7,269,253 deferred balance at December 31, 2009. The cumulative customer responsibility including interest is \$8,529,366 at the end of 2009. The level of this deferral balance does not warrant a rate change. Under the PCA mechanism, surcharges can be triggered when the balance of the deferral account is approximately \$30 million.

- 4 The Commission Staff has reviewed PSE's PCA Period 8 report and verified that the deferral balance set forth in PSE's PCA Period 8 report is reasonable and in accordance with the PCA settlement and the Commission's Orders in Dockets UE-011570 and UG-011571.
- 5 The Commission Staff does not challenge the prudence of PSE's management of its power costs during PCA Period 8. No interested party submitted comments or issues related to the report.
