**Re: Updated Program Details
Docket UE-152058**

Dear Mr. King:

Enclosed are an original and three copies of Puget Sound Energy's ("PSE's" or "the Company's") first quarter updates of its 2016 Exhibit 4: Energy Efficiency List of Measures, Incentives and Eligibility, originally filed as a part of PSE's 2016-2017 Biennial Conservation Plan ("BCP") in Docket No. UE-152058 on October 29, 2015.

The revisions are consistent with Condition (5) in Appendix A of Order 01 in Docket No. UE-152058 which indicates that Exhibit 4 revisions must be filed with the Commission as updates to the BCP. In compliance with WAC 480-109-110(3), PSE provided the CRAG with an advance, "mark-up" copy on March 29, 2016. This revision of the Exhibit is noted as "Version: Sixteenth, replacing Version: Fifteenth," in the Exhibit's footers throughout the document.

In addition to formatting improvements throughout, PSE updated its measure listings in the Low Income Weatherization, Single Family Manufactured Home Duct Sealing, Multifamily, Small Business Direct Install, and Commercial Kitchens programs, consistent with its adaptive Total Quality Management principles. PSE added several new measures and updated incentive values where appropriate. PSE reviewed these updates with the CRAG in its March 16 CRAG meeting, and outlined the key updates in its email to the CRAG on March 29, 2016.

Mr. Steven V. King
