The Company estimates that operating expenses, excluding cost of handsets, roaming and toll expenses, will be approximately \$3,442,000.

Report 7 – WAC 480-123-080(2): The budgeted investments and expenses should enable the Company to provide increasingly better service quality, coverage, capacity and clearer signals throughout the Company's service area, thereby decreasing the potential for dropped calls. Expenses directly associated with regulatory compliances for E911, plant operations, switching, maintenance, engineering and obtaining facilities from local exchange carriers and depreciation expenses comprise approximately \$2,132,000 of the expense figure set forth in Report 6 above.
