David W. Danner, Executive Director and Secretary
Washington Utilities and Transportation Commission
P.O. Box 47250
Olympia, WA 98504-7250

Subject: General Rate Filing UW-081226

Dear Mr. Danner:

Under Suncadia Water Company LLC's (Suncadia) last general rate case UW-081226 the Commission issued Order 02. Under the ordering section paragraph (5) Suncadia was to file a new general rate case when actual customer usage data is available for a twelve month period, but no later than May 1, 2010. Suncadia petitioned the Commission to have the date extended to June 1, 2010 because key members of our accounting staff had other complex projects which have affected our ability to complete the rate case.

Suncadia has made significant progress on the rate case during the month of May, however, the rate case is still not entirely complete and some details remain to be worked through. Because of this Suncadia is petitioning the Commission for another 30-day extension to UW081226 Order 02 or until July 1, 2010. We anticipate that this extension will be sufficient to allow completion of the rate case.

The Order 02 says the date is May 1, 2010. We ask the Commission for a later date of July 1, 2010.

Please do not hesitate to call me at 509.649.3906 or email cpowers@suncadia.com

Sincerely,

A handwritten signature in blue ink, appearing to read "Cape Powers". The signature is fluid and cursive, extending across the width of the page.
