April 20, 2007

**NOTICE OF COMMISSION CONSIDERATION OF STAFF'S REQUEST FOR
REVIEW OF DELEGATED ORDER**

(April 27, 2007, Open Meeting, beginning at 9:30 a.m.)

RE: *Request for Approval of Amendment to the Interconnection Agreement
between Qwest Corporation and MCImetro Access Transmission Services,
LLC, Docket UT-063055*

On March 7, 2007, Qwest Corporation (Qwest) and MCImetro Access Service LLC, d/b/a Verizon Access Transmission Services, (MCImetro) filed with the Washington Utilities and Transportation Commission (Commission) a settlement agreement in a complaint proceeding in Docket UT-063038, providing, among other things, that MCImetro will enter into an interconnection agreement with Qwest. On March 22, the parties filed in Docket UT-063055 a request to approve the Fourth Amendment to the interconnection agreement between Qwest and MCImetro. On March 28, the Commission's Executive Secretary entered an Order Approving Interconnection Agreement Amendment in Docket UT-063055 as a delegated order pursuant to RCW 80.01.030 and WAC 480-07-904(1)(d)(i).

On March 28, Commission Staff filed a Request for Review of the Executive Secretary's Order approving the Interconnection Agreement Amendment. Staff requests review under WAC 480-07-904(3), which provides an opportunity for review of delegated decisions at an open meeting. Staff requests that the Commission consider the merits of approval of the interconnection agreement in the pending complaint proceeding at the same time as the Commission considers the settlement agreement between Qwest and MCImetro.

The Commission will consider Staff's request for review of the delegated order approving the amendment to Qwest and MCImetro's interconnection agreement by placing the issue on the agenda of the Commission's open meeting scheduled to be held on **Friday, April 27, 2007, beginning at 9:30 a.m.**

Sincerely,

CAROLE J. WASHBURN
Executive Secretary
