| 2023 CEIP Biennial Report Feedback | | | | |
|------------------------------------|------------|--|---|---|
| Engagement | Date | Category | Feedback | Response |
| CEIP Engagement Series 2023 | 10/13/2023 | Clean Energy Implementation Plan Biennial Report | WAC 480-100-655 (1) & (1)(i)- PacifiCorp met this requirement in the 2021 CEIP by including a comment matrix as an Appendix to the filing. Staff expects that the Company will do something similar to meet these requirements for this update. Staff notes that these requirements apply for all advisory groups, not only the EAG. | As reflected in the introduction of the CEIP Biennial Report, PacifiCorp hosted two virtual meetings, which members of the advisory groups were invited to attend. The meetings were recorded and shared online including the presentations and notes. The presentations and notes were offered in post English and Spanish. The live version of the presentation was offered in Spanish and ASL. |
| CEIP Engagement Series 2023 | 10/13/2023 | Clean Energy Implementation Plan Biennial Report | WAC 480-100-655(1)(b)- Staff requests the Company explain in detail the utility's encouragement of participation of environmental justice and public health advocates, tribes, and representatives from highly impacted communities and vulnerable populations in addition to any other relevant groups. For example: How did the company encourage the mentioned groups/people? What steps did the Company take? | PacifiCorp utilized advertising for its virtual meetings for the CEIP Biennial Report through advisory groups' meetings, on their CEIP webpage, and through social media. Also see note above regarding recordings and language assessability. |
| CEIP Engagement Series 2023 | 10/13/2023 | Clean Energy Implementation Plan Biennial Report | WAC 480-100-655 (1)(g)- Regarding the 10/10 CEIP meeting, the rule requires in subpart (g) that utility must make available completed presentation materials for each advisory group meeting at least three business days prior to the meeting. Staff does not believe the Company complied with this requirement. Staff notes it is easier to verify compliance with the requirement if the Company circulates slides via email as well as posting to the website. | The meeting held on October 10, 2023 was to have an opportunity to hear feedback and answer questions. This was following the draft send out of the CEIP Biennial Report and was focused on the report. The presentation for the meeting was only to assist with discussions. In addition this meeting was open to the public and not set as an advisory meeting. The Company will provide these type of slides in the future in the same timing as the advisory groups. |
| CEIP Engagement Series 2023 | 10/13/2023 | Clean Energy Implementation Plan Biennial Report | WAC 480-100-655 (1)(c)- Has PacifiCorp considered more flexible meeting times in its CEIP advisory group meeting process? In terms of equity and transparency, are evening, weekend, or other times being considered? | Yes, PacifiCorp has considered more flexible meeting times for the CEIP advisory Group meetings. This is something we have offered in the past. For the meetings that were held for the CEIP Biennial Report, PacifiCorp took the approach of offering these virtual and recorded. The recording of the meetings are posted PacifiCorp's CEIP webpage, so anyone can go back and review the recording as well as printout the presentation and notes, both of which are offered in English and Spanish. |
| CEIP Engagement Series 2023 | 10/13/2023 | Clean Energy Implementation Plan Biennial Report | The CEIP Multi-party settlement agreement and testimony was filed on September 22, 2023, and the company had to submit a CEIP update draft on October 2, 2023. Staff wonders how these conditions are being addressed in the current update, for example: Has the company, and will the company, be doing any work in the next two weeks to consider conditions from settlement in the update? Examples: CBI condition 11, or interim target condition 2 | Consistent with Interim Target Condition 1, the Company has provided revised interim targets in this CEIP Update, and the Company will continue working to implement the remaining conditions in future filings, consistent with the Settlement Agreement and Order 06. |

|------------------------------------|------------|--|---|
| CEIP Engagement Series 2023 | 10/13/2023 | Clean Energy Implementation Plan Biennial Report | <p>On pages 13 through 14, in the draft CEIP, pertaining to demand response: Staff request that PacifiCorp include more details than are currently in the "Update on Demand Response Actions" section for the planned and existing demand response programs in this filing (in either the body or an appendix). Where available, details should include incentive levels, program details, timeline for program development/enrollment/deployment, expected contribution to CEIP Demand Response Specific Target by program by year, any budget updates, and any other program details relevant to specific programs. Staff is open to discussing whether some of these details could be included instead (or additionally) in its biennial conservation plan, rather than the CEIP update.</p> <p>PacifiCorp has addressed this by providing an update on the Demand Response Actions starting on page 24 of the CEIP Biennial Report and in Appendix A.</p> |
| CEIP Engagement Series 2023 | 10/13/2023 | Clean Energy Implementation Plan Biennial Report | <p>Additional Comments provided in CEIP Biennial Update Draft</p> <p>Comments were addressed in the update to the CEIP Biennial Report.</p> |
