SCHEDULE 7 RESIDENTIAL SERVICE

(Single phase or three phase where available)

AVAILABILITY:

- 1. This schedule is limited to residential service, which means service that is delivered through one meter to a single-family and is used principally for domestic purposes, even though such service may incidentally be used for nondomestic purposes. Electric service for nondomestic use may be separately metered and served under the provisions of the applicable general service schedule, provided that such service does not include single-family units.
- 2. If this schedule is applied to transient occupancy in separately metered living units, billing shall be in the name of the owner on a continuous basis.
- 3. Single-phase motors rated greater than 7-1/2 HP shall not be served under this schedule except by the express written approval of the Company.
- 4. Space conditioning and water heating capacities shall be energized in increments of 6 KW or less by a thermostat, low voltage relay, or suitable time delay equipment.
- 5. Customers requiring three-phase service under this schedule will be required to contribute the incremental cost of three-phase facilities to provide such service.

MONTHLY RATE:

Basic Charge:

\$7.49 single phase or \$17.99 three phase

Energy Charge:

8.5578¢ per kWh for the first 600 kWh

(R)

10.4157¢ per kWh for all over 600 kWh

(R)

Issued: June 26, 2013 **Advice No.:** 2013-10

By Authority of the Washington Utilities and Transportation Commission in Docket Nos. UE-130137 & UG-130138 Issued By Puget Sound Energy, Inc.

SCHEDULE 7A MASTER METERED RESIDENTIAL SERVICE

(Secondary Voltage or at available Primary distribution Voltage)

(Single phase or three phase where available)

AVAILABILITY:

- 1. This schedule is limited to master metered residential service, which is service delivered through one meter to multiple single-family units located in a structure of four (4) or more stories that are above ground level. Electric Service must be used principally for domestic purposes, but may incorporate incidental non-domestic use. Electric service for non-domestic use may be separately metered and served under the provisions of the applicable general service schedule, provided that such service does not include single-family units.
- 2. Single-phase motors rated greater than 7-1/2 HP shall not be served under this schedule except by the express written approval of the Company.
- 3. Space conditioning and water heating capacities shall be energized in increments of 6 kW or less by a thermostat, low voltage relay, or suitable time delay equipment.
- 4. Customers requiring three-phase service under this schedule are responsible for the incremental costs of three-phase facilities to provide such service.

MONTHLY RATE - SECONDARY VOLTAGE:

Basic Charge:

\$51.67

Demand Charge:

No charge for the first 50 kW or less of Billing Demand

OCT-MAR

APR-SEP

\$9.01

\$6.01

per kW for all kW over 50 kW of Billing Demand

SCHEDULE 24 GENERAL SERVICE

(Secondary Voltage)
(Single phase or three phase where available)
(Demand of 50 kW or less)

AVAILABILITY:

- This schedule is available to any Customer for general electric energy requirements other than Residential Service (as defined in Paragraph 1 of Schedule 7) and whose estimated or actual Demand is 50 kW or less.
- 2. Customers whose metered Demand exceeds 50 kW twice during the most recent 12 consecutive months are not eligible for service under this schedule.
- 3. Customers with less than 12 months billing history and Billing Demand over 50 kW twice are not eligible for service under this schedule.
- 4. The Company shall not cause customers who are principally residential and were taking service under this schedule on or before September 17, 1983, to take service under Schedule 7 of this tariff.
- 5. Deliveries at more than one point will be separately metered and billed.
- 6. Single-phase motors rated greater than 7-1/2 HP shall not be served under this schedule except by the express written approval of the Company.
- 7. Highly intermittent loads such as welders, X-ray machines, elevators, and similar loads which may cause undue lighting fluctuation shall not be served under this schedule unless approved by the Company.

MONTHLY RATES:

Basic Charge: \$9.66 single phase or \$24.55 three phase

Energy Charge:

OCTOBER-MARCH

8.9457¢ per kWh

APRIL-SEPTEMBER

8.6359¢ per kWh

SCHEDULE 25 SMALL DEMAND GENERAL SERVICE

(Secondary Voltage)

(Single phase or three phase where available)
(Demand Greater than 50 kW but less than or equal to 350 kW)

AVAILABILITY:

- This schedule is available to any Customer for general electric energy requirements other than Residential Service (as defined in Paragraph 1 of Schedule 7) and whose estimated or actual Demand is greater than 50 kW but less than or equal to 350 kW.
- 2. Customers whose Billing Demand is 50 kW or below for eleven (11) of the most recent 12 consecutive months or above 350 kW twice during the most recent 12 consecutive months are not eligible for service under this schedule.
- 3. Customers with less than 12 months billing history and Billing Demand over 350 kW twice are not eligible for service under this schedule.
- 4. Deliveries at more than one point will be separately metered and billed.
- 5. Dingle-phase motors rated greater than 7-1/2 HP shall not be served under this schedule except by the express written approval of the Company.
- 6. Highly intermittent loads such as welders, X-ray machines, elevators, and similar loads which may cause undue lighting fluctuation shall not be served under this schedule unless approved by the Company.

SCHEDULE 26 LARGE DEMAND GENERAL SERVICE

(Secondary Voltage or at available Primary distribution Voltage)
(Single phase or three phase where available)(Demand Greater than 350 kW)

AVAILABILITY:

- 1. This schedule is available to any Customer for general electric energy requirements other than Residential Service (as defined in Paragraph 1 of Schedule 7) and whose estimated or actual Demand is greater than 350 kW.
- 2. Customers taking service at Secondary Voltage and whose Billing Demand is 350 kW or below for eleven (11) of the most recent 12 consecutive months are not eligible for service under this schedule.
- 3. Deliveries at Secondary voltage at more than one point will be separately metered and billed. Deliveries at Primary voltage to a Customer will be at one Point of Delivery for all service to that Customer on contiguous property.
- 4. Single-phase motors rated greater than 7-1/2 HP shall not be served under this schedule except by the express written approval of the Company.
- 5. Highly intermittent loads, such as welders, X-ray machines, elevators, and similar loads that may cause undue lighting fluctuation, shall not be served under this schedule unless approved by the Company.
- 6. For service at Primary voltage, all necessary wiring, transformers, switches, cut-outs and protection equipment beyond the Point of Delivery shall be provided, installed and maintained by the Customer, and such service facilities shall be of types and characteristics acceptable to the Company. The entire service installation, protection coordination, and the balance of the load between phases shall be approved by Company engineers.

SCHEDULE 29 SEASONAL IRRIGATION & DRAINAGE PUMPING SERVICE

(Single phase or three phase where available)

AVAILABILITY:

- 1. This schedule applies to any Customer whose seasonal electric energy requirements are used exclusively for the purpose of irrigation and/or drainage pumping of water on agricultural land used in production of plant crops, and who requires service at secondary voltage. To be eligible for service under this schedule, customers must be qualifying agricultural irrigation or drainage pumping customers pursuant to the Bonneville Power Administration's General Rate Schedule Provisions.
- 2. Usage must be measured at the point of delivery and deliveries at more than one point will be separately metered and billed.
- 3. Single-phase motors rated greater than 7-1/2 HP shall not be served under this schedule except by the express written approval of the Company.
- 4. Power loads which may cause undue fluctuations in electric service shall not be served under this schedule unless approved by the Company.

SCHEDULE 31 PRIMARY GENERAL SERVICE

(Single phase or three phase at the available Primary distribution voltage)

AVAILABILITY:

This schedule applies to all service to contiguous property supplied through one meter where:

- 1. The customer requires primary voltage to operate equipment other than transformers; or
- 2. The customer requires distribution facilities and multiple transformers due to loads being separated by distances that preclude delivery of service at secondary voltage; or
- 3. The load is at a remote or inaccessible location that is not feasible to be served at secondary voltage from Company facilities.
- 4. All necessary wiring, transformers, switches, cut-outs and protection equipment beyond the point of delivery shall be provided, installed and maintained by the Customer, and such service facilities shall be of types and characteristics acceptable to the Company. The entire service installation, protection coordination, and the balance of the load between phases shall be approved by Company engineers.
- 5. Facilities that are being served under this schedule as of May 13, 1985, may, st the customer's option, retain service under this schedule.

SCHEDULE 40 LARGE GENERAL SERVICE GREATER THAN 3 aMW

(Single phase or three phase at the available Primary or Secondary distribution voltages)

AVAILABILITY:

- 1. This schedule does not apply to Customers taking service on Schedules 46, 49, 448, or 449 but is mandatory for all other Customers with over 3 Average MW of load on a non-dedicated distribution feeder (or substation when, but for the feeder configuration, the customer would have 3 aMW of load on a distribution feeder) where:
 - a. For Customers not on Schedule 40 the 3 aMW of load has occurred during six (6) of the 12 months of a test year for any general rate case, or
 - b. For Customers already on Schedule 40 who have maintained a minimum of an average of 2 aMW over the entire test year of the most recent general rate case shall remain on Schedule 40. Customers who fall below this average will be removed from this Schedule on the date rates go into effect as a result of the applicable general rate case. However, a Customer whose Schedule 40 usage falls below 2 aMW shall remain on Schedule 40 if the Customer has a designated energy manager and can document to the Company that the reduction in its energy usage below 2 aMW is directly attributable to energy efficiency investments undertaken by the Customer during the time the Customer has been served on Schedule 40.
- 2. For Primary Service all necessary wiring, transformers, switches, cut-outs and protection equipment beyond the Point of Delivery shall be provided, installed and maintained by the Customer, and such service facilities shall be of types and characteristics acceptable to the Company. The entire service installation, protection coordination, and the balance of the load between phases shall be approved by Company engineers prior to availability of service under this schedule.

MONTHLY RATES:

This tariff is for bundled retail service only and the Customer will be billed for the Basic Charge, Production and Transmission Charges, and Distribution Charges.

1. Basic Charge(s): applies to each metering point

Primary Voltage Metering Points: \$339.51

Secondary Voltage Metering Points with annual peak Demand <= 350 kW: \$51.67 Secondary Voltage Metering Points with annual peak Demand > 350 kW; \$104.46

2. Production and Transmission Charges:

a.	Demand Charge:	JAN-DEC
	High Voltage Metering Point	\$4.02 per kW of Coincident Billing Demand
	Primary Voltage Metering Point	\$4.11 per kW of Coincident Billing Demand
	Secondary Voltage Metering Point	\$4.20 per kW of Coincident Billing Demand
b.	Energy Charge:	
	High Voltage Metering Point	5.4413d nor W/h

(R) High Voltage Metering Point 5.4413¢ per kWh

Primary Voltage Metering Point (R) 5.5191¢ per kWh Secondary Voltage Metering Point 5.6638¢ per kWh (R)

Issued: June 26, 2013

Advice No.: 2013-10

By Authority of the Washington Utilities and Transportation Commission in Docket Nos. UE-130137 & UG-130138 Issued By Puget Sound Energy, Inc.

PUGET SOUND ENERGY, INC. Electric Tariff G

SCHEDULE 43

INTERRUPTIBLE PRIMARY SERVICE FOR TOTAL-ELECTRIC SCHOOLS (Continued)

(Single phase or three phase at the available Primary distribution voltage)

MONTHLY RATE:

Basic Charge:

\$339.51

Demand Charge:

\$4.75 per kW of Billing Demand

Plus

\$3.89 per kW of Critical Demand established in the preceding 11 months

Energy Charge:

5.5894¢ per kWh

(R)

Reactive Power Charge: 0.300¢ per reactive kilovolt ampere-hour (kvarh)

ADJUSTMENTS:

Rates in this schedule are subject to adjustment by such other schedules in this tariff as may apply.

BILLING DEMAND:

The highest Demand established during the month.

CRITICAL DEMAND:

The highest average 15-minute demand recorded between 5:00 p.m. and 8:00 p.m. on any day the customer has been notified by the Company that power interruption is required, less a demand credit allowed at the rate of .6 watts per square foot of structure.

REACTIVE POWER CHARGE:

The reactive power charge shall apply to only those electric loads with a maximum monthly Demand of 100 kW or higher. The meter used for the measurement of kvarh shall be ratcheted to prevent reverse registration.

GENERAL RULES AND PROVISIONS:

Service under this schedule is subject to the General Rules and Provisions contained in this tariff.

Issued: June 26, 2013 **Advice No.:** 2013-10

Effective: July 1, 2013

By Authority of the Washington Utilities and Transportation Commission in Docket Nos. UE-130137 & UG-130138 Issued By Puget Sound Energy, Inc.

SCHEDULE 46 HIGH VOLTAGE INTERRUPTIBLE SERVICE

Electric Tariff G

(Three phase, delivery voltage of 50,000 volts or higher)

AVAILABILITY:

- 1. This schedule applies to service that may be interrupted at the request of the Company to maintain or manage the integrity of its electrical system or to assist the Company in the management of energy supplies and resources for economic or other purposes subject to the terms and conditions described below.
- 2. Customer taking service under this Schedule must anticipate 210 hours of service interruption annually, as described in subsequent sections of this schedule.
- 3. Separate voltage arrangements with individual customers may be required in instances where available high voltage delivery voltages are subject to change in accordance with the Company's programs for system improvements.
- 4. All necessary wiring, transformers, switches, cut-outs, and protection equipment beyond the Point of Delivery shall be provided, installed, and maintained by the Customer, and such service facilities shall be of types and characteristics acceptable to the Company. The entire service installation, protection coordination, and the balance of the load between phases shall be approved by Company engineers.

MONTHLY RATE:

Demand Charge:

\$2.09 per kVa of Billing Demand

Energy Charge:

5.4413¢ per kWh

ADJUSTMENT:

Rates in this schedule are subject to adjustment by such other schedules in this tariff as may apply.

BILLING DEMAND:

The highest average thirty minute Demand recorded during the month (but not less than 4,400 kVa), exclusive of Demand occurring on Sundays or between 12:00 midnight and 5:00 a.m.

Issued: June 26, 2013 **Advice No.:** 2013-10

By Authority of the Washington Utilities and Transportation Commission in Docket Nos. UE-130137 & UG-130138

Issued By Puget Sound Energy, Inc.

(R)

SCHEDULE 46 HIGH VOLTAGE INTERRUPTIBLE SERVICE (Continued)

(Three phase, delivery voltage of 50,000 volts or higher)

ANNUAL MINIMUM CHARGE:

The sum of the monthly bills in any period of twelve (12) consecutive months shall not be less than \$25.08 per kVa of the maximum Billing Demand established plus 4.8972¢ per kWh consumed during the period.

(R)

INTERRUPTION OF SERVICE:

Advice No.: 2013-10

- 1. Times and Durations of Interruptions: Electric Service shall be interrupted and suspended by Customer, as directed by the Company, between the hours of 8:00 a.m. and 12:00 noon and between 5:00 p.m. and 8:00 p.m. Monday through Saturday. Subject to paragraph 3 below, the duration of such interruption and suspension ("Suspension Period") shall be specified in the Company's notice to the Customer to initiate and maintain such interruption and suspension.
- 2. Notice Prior to Suspension Period: The Company shall provide the Customer reasonable advance notice of a Suspension Period; provided, however Company will provide Customer at least 14 hours advanced notice of a Suspension Period when such service interruption is for the Company to economically manage its energy supplies and resources. When Company notifies Customer of a service interruption for the Company to economically manage its energy supplies and resources, Company will provide customer with a non-binding estimate of the penalty per kWh to be assessed if Customer fails to interrupt and suspend service.
- 3. Limitations on Service Interruptions: Customer will not be required to interrupt and suspend Electric Service under this Schedule for more than 210 hours during any twelve-month period commencing on October 1 of each year; provided, however, no Customer will be required to interrupt and suspend Electric Service pursuant to this Schedule for more than 182 hours during any such twelve-month period for the sole purpose of Company management of energy supplies and resources for economic purposes. This maximum of 182 hours of interruption for Company management of energy supplies and resources for economic purposes shall also include hours used to test Customer's preparedness to interrupt and suspend service; provided, however, the Company will not institute any more than two such tests during the twelve month period.

Issued: June 26, 2013 Effective: July 1, 2013

By Authority of the Washington Utilities and Transportation Commission in Docket Nos. UE-130137 & UG-130138 Issued By Puget Sound Energy, Inc.

SCHEDULE 49 HIGH VOLTAGE GENERAL SERVICE

(Three phase delivery voltage of 50,000 volts or higher)

AVAILABILITY:

- Separate voltage arrangements with individual Customers may be required in instances where available high voltage delivery voltages are subject to change in accordance with the Company's programs for system improvements.
- 2. All necessary wiring, transformers, switches, cut-outs, and protection equipment beyond the Point of Delivery shall be provided, installed, and maintained by the Customer, and such facilities shall be of types and characteristics acceptable to the Company. The entire service installation, protection coordination, and the balance of the load between phases shall be approved by Company engineers.

1000	\$35.33	

(1)Limited availability - see section 9 of Special Terms And Conditions.

Facilities Charge:

Options A and B Terms:

- 1. Estimated Installed Cost: The Estimated Installed Cost is the estimated installed cost of the lighting system, including but not limited to, luminaires, poles, distribution facilities, labor, overheads and includes the effect of applicable taxes (when applicable).
- 2. Estimated System Cost: The Estimated System Cost is the estimated installed cost of the lighting system including, but not limited to, luminaires, poles, distribution facilities, labor, overheads but excludes the effect of applicable taxes.

Amounts of the facilities charges:

Option A: 1.567% times the Estimated System Cost per month.

Under Option A the Customer makes no payment up-front. The monthly facilities charge covers taxes, depreciation, insurance, return and routine maintenance. At any time, upon notice to the Company, the Customer may pay the unamortized balance of the Estimated Installed Cost and thereafter pay the monthly facilities charge under Option B for the remainder of the term.

SCHEDULE 53 STREET LIGHTING SERVICE (Continued)

COMPANY-OWNED LIGHTS – SPECIAL TERMS AND CONDITIONS (Continued):

- 7. (Cont.) Upon failure in the future, the Company will replace the LED luminaire at no charge to the Customer however, if the actual future cost is different than the Company's investment in the luminaire, this may result in a change in rates. The O&M cost component is estimated based on manufacturer's representations, if actual O&M costs differ from this estimate this may result in a change in rates.
- 8. <u>Photocell with LED Luminaires:</u> The photocell receptacle shall accept a locking type 120 volt photocell complying with ANSI C136.10 1988 or subsequent revision.
- 9. <u>Availability:</u> The Company may limit or not offer new street lights of any type or wattage at any time, even though rates for such lights may be in this Schedule. Existing lights may remain until replaced.

SCHEDULE 54 CUSTOMER-OWNED STREET LIGHTING ENERGY SERVICE SODIUM VAPOR and LED

AVAILABILITY:

- 1. This schedule is available to municipalities, agencies, or subdivisions of government or community associations and similar organizations and applies to electric energy for dusk-to-dawn sodium vapor lighting of streets, alleys, and other public thoroughfares which can be served from the Company's existing distribution system, with the following limitations.
- 2. After June 1, 1998, service is available only to those Customers who are receiving service under this schedule as of June 1, 1998.
- 3. After June 1, 1999, no new installations or additions to existing systems or relocated fixtures will be served by the Company. However, existing installations may be converted to Light Emitting Diode (LED) service subject to the terms herein.

SCHEDULE 55 AREA LIGHTING SERVICE

AVAILABILITY:

- 1. This schedule applies to dusk-to-dawn lighting where 120 volt service is existing on the Company owned and installed pole upon which the fixture is to be installed. Where such secondary voltage service or pole is not available, service under this schedule will be available upon payment of the costs to provide such pole and/or secondary voltage service or pole and service as provided herein.
- 2. For lights installed prior to Nov. 1, 1999, service is for a term of twelve (12) months and removal charges do not apply. For lights and/or poles installed after Nov. 1, 1999, service under this schedule for periods of less than eight (8) years is subject to charges for removal as provided herein, unless a subsequent customer requests service.
- 3. Service under this schedule will be discontinued if the distribution facilities being utilized to serve are removed due to a conversion of such facilities to an underground system.
- 4. For lighting facilities installed after Nov. 1, 1999, where necessary, the Customer shall obtain for, or grant to, the Company necessary permits or operating rights to place lighting facilities without expense to the Company. In conditions where it is necessary to place any lighting facilities on private property, the customer shall obtain and furnish suitable easements without expense to the Company.

MONTHLY RATE PER LAMP:

Lamp Charges per month per lamp:

Sodium Vapor Lamp Wattage	Rate	
70	\$10.42	
100	\$11.72	
150	\$13.97	
200	\$16.75	
250	\$18.88	
400	\$25.48	
Metal Halide Lamp Wattage	Rate	
250	\$21.79	

FACILITIES CHARGE:

The Company's facilities will be extended to provide secondary voltage service to an existing pole or to a thirty foot wood pole (installed for the purpose of area lighting) at locations where such pole and/or service is not available under the following terms:

<u>Facilities installed prior to November 20, 1975</u>: Customers served by facilities extended prior to this date shall be subject to a charge of \$2.08 per month for each pole required for such extension.

Effective: July 1, 2013

(R)

Issued: June 26, 2013 **Advice No.:** 2013-10

By Authority of the Washington Utilities and Transportation Commission in Docket Nos. UE-130137 & UG-130138 Issued By Puget Sound Energy, Inc.

Ken Johnson

SCHEDULE 55 AREA LIGHTING SERVICE (Continued)

Facilities installed after November 1, 1999: Customers served by a 30 foot wood pole installed after this date shall have the option of paying the full cost of the extension and pole up-front or shall be subject to a charge of \$8.18 per month for each pole required for such extension. The cost of all other extensions of facilities to provide secondary voltage service shall be paid in advance of service.

(R)

SPECIAL TERMS AND CONDITIONS:

- 1. Ownership & Operations: The Company will own, operate, and maintain the facilities for supplying area lighting service utilizing its overhead circuits in accordance with the Company's standards. The Company will furnish the necessary energy, repairs, and maintenance. Repairs and maintenance work will be performed by the Company as required during regularly scheduled working hours of the Company.
- 2. Notification of Inoperable Lights: It shall be the responsibility of the Customer to notify the Company of lights that are not working. Upon notification, within seventy-two (72) hours, excluding Saturdays, Sundays and holidays, the Company will investigate and take corrective action if such action is the responsibility of the Company. If such Company investigation/corrective action is not taken with seventy-two (72) hours for each such light, the Customer's billing shall be credited an amount equal to the monthly Lamp Charges normally billed for that light. This seventy-two hour guarantee of service is in lieu of the provisions of Schedule 130 which are not available under this schedule. The Company will be excused from providing maintenance service with seventy-two (72) hours in the event of significant adverse events, such as storms, earthquakes, or other events beyond the Company's control including those enumerated in Schedule 80, paragraph 12.a. of this tariff.
- Hours of Service: Service under this schedule is for dusk-to-dawn lighting, or lighting service for the average number of hours of darkness per month (approximately 4,200 hours per year).

Issued: June 26, 2013 **Advice No.:** 2013-10

Effective: July 1, 2013

By Authority of the Washington Utilities and Transportation Commission in Docket Nos. UE-130137 & UG-130138 Issued By Puget Sound Energy, Inc.

PUGET SOUND ENERGY, INC. **Electric Tariff G**

SCHEDULE 57 CONTINUOUS LIGHTING SERVICE

(Single phase or three phase where available)

AVAILABILITY:

This schedule is available for energy required to operate traffic control or traffic directing devices.

MONTHLY RATE PER WATT OF CONNECTED LOAD: 2.498¢

(R)

MINIMUM CHARGE: \$4.08 per month

(R)

ADJUSTMENTS:

Rates in this schedule are subject to adjustment by such other schedules in this tariff as may apply.

LINE EXTENSIONS:

The Company's primary or secondary distribution circuits will be extended by the Company for service under this schedule at the Customer's expense.

DETERMINATION OF CONNECTED LOAD:

Connected load shall be the total rating of all components of the device, whether or not these components will be energized simultaneously.

GENERAL RULES AND PROVISIONS:

Service under this schedule is subject to the General Rules and Provisions contained in this tariff.

Issued: June 26, 2013 **Advice No.:** 2013-10

SHEDULE 58 FLOOD LIGHTING SERVICE

AVAILABILITY:

- 1. This schedule applies to dusk-to-dawn flood lighting of private property where 120 volt service is existing on the pole upon which the fixture is to be installed. Where such secondary voltage service or pole is not available, service under this schedule will be available upon payment of the costs to provide such secondary voltage service or pole and service as provided herein.
- 2. For lights installed prior to Nov. 1, 1999, service is for a term of twelve (12) months and removal charges do not apply. For lights and/or poles installed after Nov. 1, 1999, service under this schedule is effective for a period of eight (8) years after installation of Company-owned facilities, unless (a) a subsequent customer requests service or (b) the facilities are removed, whereupon appropriate removal charges shall be paid.
- 3. Service under this schedule will be discontinued if the distribution facilities being utilized to serve are removed due to a conversion of such facilities to an underground system.
- 4. For lighting facilities installed after Nov. 1, 1999, where necessary, the customer shall obtain for, or grant to, the Company necessary permits or operating rights to place lighting facilities without expense to the Company. In conditions where it is necessary to place any lighting facilities on private property, the customer shall obtain and furnish suitable easements without expense to the Company.

SCHEDULE 140 PROPERTY TAX TRACKER

(N)

1. APPLICABILITY:

This rate is applicable to all Customers of the Company and will be applied to all bills to Customers with Energy usage during a month when this schedule is effective.

2. PURPOSE:

The purpose of this schedule is to pass through the cost of all property taxes incurred by the Company.

3. MECHANISM:

- a. To implement the mechanism in April, 2013, property taxes will be removed from general rates by reducing the energy component or per unit rate for street lights and rentals or for Schedules 448 and 449 by reducing the distribution charge for the amount of the property taxes included in Docket Nos. UE-111048 and UG-111049 and those same costs will be included as an energy component rate, or a per unit component rate, in the Schedule 140 tracker. For billing purposes the Schedule 140 rates will be included with the general rate tariff billing resulting in a zero overall impact.
- b. Following this initial implementation the mechanism will act as a tracker rate schedule wherein it will collect the total amount of property taxes assessed, as billed by counties or states from the last property tax cycle ("Assessed Property Taxes"). Where the Company has not received a bill for property taxes from any given county ("Delayed Billing County") Assessed Property Taxes shall include an estimate of taxes equal to the prior year's tax assessed by the Delayed Billing County. A property tax cycle is approximately sixteen months, from January 1st of every year, when the taxing authorities obtain the right to tax the Company's property, until April the following year when information provided by the states and counties provides the actual property taxes owed.
- c. With implementation of this tracker mechanism, in addition to removing the cost of all property taxes from general rates as described, the tracker will be adjusted each year in May based on that year's Assessed Property Taxes. For example, if property taxes for April 2013 exceed that for April 2012, this difference will be positive and will, if the true-up described in section 3.d. of this schedule is zero, result in an overall increase to customer rates. If this difference is negative it will, if the true-up described in section 3.d of this schedule is zero, result in an overall decrease to customer rates.

Effective: July 1, 2013

Issued: June 26, 2013 **Advice No.:** 2013-10

By Authority of the Washington Utilities and Transportation Commission in Docket Nos. UE-130137 & UG-130138 Issued By Puget Sound Energy, Inc.

Ву:

Ken Johnson

Title: Director, State Regulatory Affairs

(N)

SCHEDULE 140 PROPERTY TAX TRACKER (Continued)

d. The Company will submit annual filings on or prior to April 15 for rates effective on May 1 each year. Each annual filing will be for rates to be effective from May 1 through April 30 the following year. The rates will be based on (i) the total Assessed Property Taxes that become known prior to the annual filing, and (ii) starting with the April 2014 filing, that amount of true-ups described below.

True-Ups:

- (i) a true-up equal to the actual property tax amounts paid in past tax cycles minus the Assessed Property Taxes used to set rates in past tax cycles;
- (ii) a true-up equal to property tax refunds or other adjustments received or paid for property with lien dates on or after January 1, 2012 that are not previously included in rates; and (iii) a true-up will be included for the difference between what was expected to be collected when rates were set the previous year versus the amount actually collected that is due to variances between the load used to set the rate and actual load experienced during the period.

If a true-up calculation results in a positive number, the amount will be an addition to the amount to be otherwise collected under Schedule 140 during the current year. If the result is a negative number, the resulting amount will be a reduction to the amount to be otherwise collected under Schedule 140 during the current year.

e. Where the calculation described in d. above results in an amount that is less than one percent (1.0%) ("1% Threshold Amount") greater or less than the prior year's Assessed Property Taxes the annual filing submitted by the Company shall take the form of a letter stating that no change to the rates in Schedule 140 will be submitted. The 1.0% Threshold Amount that is not passed through in one year will be included as an addition to the following year's Assessed Property Taxes when setting rates for Schedule 140.

EXPEDITED RATE FILING RATE ADJUSTMENT (Continued)

MONTHLY RATE: The surcharge rate shown below and on the following sheets shall be added to the rate(s) shown on each schedule for electric service.

SCHEDULE 7

Basic Charge: \$0.38 per month single phase or \$0.90 per month three phase

Energy Charge: First 600 kWh \$0.001114 per kWh All kWh over 600 kWh \$0.001357 per kWh

SCHEDULE 7A & SCHEDULE 25

Basic Charge: \$2.60 per month

Demand Charge: \$0.01 per kW of Billing Demand Apr-Sep Demand Charge: \$0.01 per kW of Billing Demand Oct-Mar

Energy Charge first 20,000 kWh: \$0.001260 per kWh Apr-Sep \$0.001394 per kWh Oct-Mar

Energy Charge all over 20,000 kWh: \$0.000991

Reactive Power Charge: 0.000000 per reactive kilovolt ampere-hour (kvarh)

SCHEDULE 24*

Basic Charge: \$0.50 per month single phase or \$1.26 per month three phase Energy Charge: \$0.001154 per kWh Apr-Sep \$0.001197 per kWh Oct-Mar

SCHEDULE 26*

Basic Charge: \$6.00 per month

Demand Charge: \$0.12 per kW of Billing Demand Apr-Sep Demand Charge: \$0.18 per kW of Billing Demand Oct-Mar

Energy Charge: \$0.000634 per kWh

Reactive Power Charge: 0.00003 per reactive kilovolt ampere-hour (kvarh)

Adjustments for delivery at Primary Voltage: Basic Charge: \$11.40 per month

Demand Charge: \$0.00 per kW to all Demand rates

Energy Charge: 0.00% reduction to all Energy and Reactive Power Charges

*Rate applies to the schedule(s) as well as equivalent schedules such as Residential and Farm Schedules.

Issued: June 26, 2013 **Effective:** July 1, 2013

Advice No.: 2013-10
