Re: Docket No. UT-041239

Dear Ms. Washburn:

Enclosed are the original and fourteen copies of the Exhibits for the Declaration of Richard A. Finnigan that was filed with the Commission on August 3, 2004. I apologize for any inconvenience this omission may have caused.

Sincerely,

RICHARD A. FINNIGAN

Washington Instate Coverage

A prefix is the first three numbers after the area code of a phone number. All the prefixes listed below are part of the Washington Flat Rate Coverage Area. If your prefix is listed below, you will be able to use WebTel to call other prefixes in the Washington Rate Coverage Area. If you enroll in the Washington Measured Rate Service and place a call to any of the prefixes not listed below you will be charged 4.9¢ per minute.

Residential	34.95	209.70 (5% Discount)	419.40 (10% Discount)
Business	49.95	299.70 (5% Discount)	599.40 (10% Discount)

**Prices are for new customers only. Current customers call WebTel for details!*

Webtel offers additional savings when you enroll in the Pre-Pay Plan. You can use service on your home or business phone and/or cell phone. There is no additional equipment required, no need to switch carriers, no contracts to sign, no service charge and no fees! You pay just one low monthly flat rate.

How WebTel™ can afford to offer such economical calling plans
 Because WebTel™ is an Internet Telephony Service Provider (ITSP), we charge Internet rates for your long-distance calls--and save you money.

Requirements for WebTel™ services
 A telephone and telephone service from your local company are the only two requirements for using WebTel™ services. You don't need an Internet account or a computer.

- 2 Easy steps to use WebTel Service
- 1) Dial WebTel's Local Access phone number
 - 2) Upon hearing the new dial tone, enter the destination number.

We hope this helps in your decision to choose WebTel. If you have any questions, please give us a call, our number is 866-4WEBTEL

How long has WebTel™ been in business and what services do you provide?

WebTel Wireless, Inc., an Internet Telephony Service Provider (ITSP) founded in 1996 to provide voice and data communication services for standard and mobile phone users. Our mission is to provide our customers with high-quality communications services on a cost-competitive basis.

To do this we created a proprietary managed Internet Protocol (IP) network that blends wireless communications with the Internet. As a result, we are able to offer Voice over Internet Protocol (VoIP) services at low, monthly rates for residential and business customers. In addition, our domestic distance rates are among the most competitive in the industry.

WebTel™ is at the hub of three powerful segments of the global-communications industry: high-speed data, Internet service providers and wireless services. We deliver complete, end-to-end communication solutions that address a variety of voice and data market requirements including complete turn-key packages and revenue-sharing opportunities.

How do I make a call using WebTel™ services?

It's simple—and requires nothing more than a telephone. First, you dial a WebTel™ local-access number to enter our system. Once the number is verified, a voice prompt will instruct you to enter an area code and phone number of the person you want to call—no need to dial a "1" first. The WebTel™ Voice over Internet Protocol (VoIP) gateway server seamlessly sends this call information over the Internet to the gateway server that's closest to your call's destination. The VoIP gateway server then dials the phone number you've entered. After the connection is established between the gateway server and the person you're calling will be talking over the WebTel™ network. To use WebTel™ services you must establish a VoIP account with us, and the number you're calling must be within the WebTel™ network-coverage area.

How will I know if the person I'm calling is outside of the WebTel™ coverage area?

If you dial a number that's outside of our coverage area, the call will not go through. Instead, you will hear a dial tone or voice prompt; you'll need to use your regular telephone service to call that number or subscribe to our Nationwide calling plan.

What's the WebTel™ Nationwide calling plan?

The WebTel™ "All You can talk America" offers unlimited nationwide calling including interstate and international calls for one low monthly flat rate. \$29.95 for nationwide residential plan and \$49.95 for nationwide business plan.

What level of call quality can I expect?

The WebTel™ Voice over Internet Protocol (VoIP) system is one of the best in the business. Our subscribers report great satisfaction with the sound quality of their calls. (Some areas may experience a slight echo for the first 10 seconds, but that should subside.)

Can I use WebTel™ services with my cell phone?

One of our most unique qualities is that WebTel™ services work exceptionally well with cell phones. If you subscribe to a flat-rate package for local dialing only, WebTel™ is the perfect option because you can make all your in-state, long-distance calls through us and save on long-distance charges. (Note: Your cellular-service provider may charge you for the initial local call and/or per-minute charges.)

Can I use WebTel™ services from a pay phone?

WebTel™ services can be used only from the telephone number that you registered with us.

Are there any other WebTel™ fees or charges?

No, with WebTel™ there are no toll charges, no service charges or any hidden additional fees. We charge absolutely zero cents per minute as long as you call within your coverage area.

How can WebTel™ afford to offer such economical calling plans?

Because WebTel™ is an Internet Telephony Service Provider (ITSP), we charge Internet rates for long-distance calls--and save you money.

Will WebTel™ switch my local telephone-service carrier?

No WebTel™ service doesn't affect your local telephone service carrier. To use our services, you simply dial a local-access number. There's no need to switch service.

What should I do if I need to cancel my WebTel™ plan?

To cancel your service, call the WebTel™ business office at (310) 265-3300 between 9:00 a.m. and 5:00 p.m. PST, Monday through Friday. Your cancellation confirmation will appear on the final bill of the next billing cycle.

Do you have a Referral Program?

Yes. Be a part of our Referral Program and earn credit toward your next bill. If you know of any businesses, friends, or family members who might be interested in using our services, please call toll free at (888) 448-4626.

Do you have an Agents' Program?

Yes. Earn extra money by becoming a WebTel™ agent. It's a simple process and, best of all, offering a service that anyone can use. For more information please contact our Agents' Program at (888) 448-4626.

Just to prove how valuable WebTel services are, here are some testimonials from our subscribers.

"I loved your service since day one!!! I have been able to call my family & talk with them as long as I want & I love it. You also have [a] great staff that I have talked with when ever I have called."
G. Abbott Orting, WA

"What a welcome relief from high long distance rates! With WebTel my phone bill is 75% lower per month. I can relax and enjoy my conversations with my friends. Thank you for your service."
Janice Gibson Snohomish, WA

More Testimonials...

"My long distance bill use to exceed \$80 a month because I called home a lot. After I switched to WebTel it dropped which saved me an incredible amount of money! I found myself staying on the phone longer than I would have if I per minute. WebTel is a convenient and hassle free way to call those you love and not spend your entire paycheck! Having a flat rate also allows me to budget my money and not receive those surprisingly high phone bills at the end of the month! Everyone should use this wonderful service!" *Megan Stone Arizona*

"Now I can keep in daily touch with my mother, who is in her seventies, and my phone bill has been cut in half!" *G. Prescott, AZ*

"When I first heard of your service I was spending an average \$250 a month on long distance calls and this does not include my regular fees for service. I was immediately excited about the substantial savings your company was offering me for your great service, but more importantly thank you for treating me like a valued customer." *Daryyl Ulibarri Marketing Director MMCA -Flagstaff, AZ*

"We just want to say how much using WebTel has saved our company in long distance charges. We have cut our long distance bill in half by using your service. Thanks for the service; we share WebTel with others." *Dr. Dale Clark Mashell Chiropractor Eatonville, WA*

"I have been using your long distance in-state residential service since February 2000. Because I live just outside the Seattle metropolitan area, almost all of my calls are long distance. I save approximately \$75 - \$125 a month in long distance charges. In my opinion your monthly service plan is money well spent. I would encourage others to try WebTel." *Kathleen Stimmel*

"You save me a lot of money. I tell everybody about you. Thank you!" *T. Malme Marysville, WA*

"We've been using WebTel since December 5, 1999, and we are very satisfied with the service. We have never fa through, even on Christmas Eve and midnight New Years EveÉ. We would recommend WebTel to anyone who m: frequent in-state calls." *Mel & Merle Burzynski Sun City West, AZ*
