

Subject: WUTC - Washington Conservation Working Group - Meeting Materials for June 2 Meeting

To Members of the Washington Conservation Work Group:

Good morning!

Attached are meeting materials for Thursday's meeting. They include the agenda, the latest iteration of the Consensus Document, materials from the Methodology Subgroup, the Staff's template and the Staff's matrix. With respect to the Consensus Document, thanks for all of your comments! I have tried to incorporate the spirit of each comment having to make some choices when more than 1 person edited the same section/sentence. There are also some open questions, which are noted. As we will discuss tomorrow, you will have an opportunity to provide written comments on this (and subsequent) version of the Consensus Document, although I hope to have a robust discussion of its current content tomorrow.

Cheers, Kristi
