Title and Date of the Comments:

Comments of James Adcock in regards to Public Inspection of Final Ranking

July 4, 2018

I wish to note for the record that PSE in their letter of 6/15/2018 claims:

"Finally, in compliance with WAC 480-107-035(3), PSE makes available for public inspection at PSE's place of business a summary of each project proposal and a final ranking of all proposed projects. Please see Attachment B to this letter, which is a copy of the summary of each project proposal and a final ranking of all proposed projects from the 2011 RFP process that PSE made available for public inspection at PSE's place of business."

Some years ago I attempted repeatedly to get such ranking from PSE via multiple approaches, including from Mr. Popoff, including finally showing up at "PSE's place of business" and asking to see such ranking, and was repeatedly rebuffed by PSE employees, and insulted for my efforts, until finally I complained to UTC, who intervened to force PSE to give me such a ranking, but even then PSE did not give me an actual ranking, but rather just a partial ranking.

I would ask in the future that if PSE so claims to make such ranking available for public inspection "at PSE's place of business", that PSE should then actually do so, do so on demand, and should refrain from insulting members of the public who ask to see
