**Re: Docket UE-200504
2020 Renewable Energy Target Final Compliance Report
WAC-Required Report: WAC 480-109-210(6)**

Dear Ms. Maxwell:

Puget Sound Energy (“PSE” or “the Company”) submits for filing its 2020 Renewable Energy Target Final Compliance Report (the “Report”). In Order 01 in the above-referenced docket, the Washington Utilities and Transportation Commission required PSE to file a second compliance report no later than June 1, 2022, that provides information necessary to determine whether the Company met the January 1, 2020 Renewable Portfolio Standard (“RPS”) approved target of 3,114,782 MWh, including the specific megawatt-hours and/or renewable energy credits (“RECs”) used to meet the target. Order 01 also required PSE to provide details about which certificates were used for its voluntary renewable energy programs in 2020.

Attachment 1 to the Report is a summary of PSE’s compliance with WAC 480-109-210(6) and RCW 19.285.040. Attachment 2 is a listing of certificates retired for 2020 RPS compliance. Attachment 3 is a listing of RECs used for PSE’s voluntary renewable energy programs in 2020.

Additionally, with this final compliance filing, PSE is requesting that the Commission approve PSE’s use of distributed generation multipliers from two qualifying facilities to achieve compliance with PSE’s 2020 target. Attachment 4 is the support required for approving the two times distributed generation multiplier for Hidden Hollow and Stoltze Cogeneration Plant 1 that are further discussed in the Report. PSE requests that the Commission approve PSE’s use of the multipliers to achieve compliance with PSE’s 2020 target.
