As required by WAC 480-07-883(2) a copy of this filing has been served on each party to this proceeding.

The enclosed revised tariff sheets reflect issue dates of June 26, 2013, and effective dates of July 1, 2013, by authority of the Washington Utilities and Transportation Commission in Docket Nos. UE-130137 and UG-130138 (Consolidated).

Paragraphs 174 through 182 discussed low-income customer bill assistance and required the Company to increase funding for that program by \$1.0 million per year. This funding increase will be implemented as part of the Company's annual low-income true-up compliance filing in August 2013. The \$1.0 million will be split between electric and natural gas programs using the same methodology used in the Company's last low-income filing in Docket Nos. UE-111048 and UG-111049 (consolidated).

Work papers that demonstrate the derivation of the rates proposed to be implemented by the Expedited Rate Filing Rate Adjustment (Schedule 141) are attached herewith in electronic format. In accordance with the Order the enclosed electric tariff filing is based on a revenue deficiency of \$30,895,104 or 1.53 percent.

Work papers that demonstrate the derivation of the rates proposed to be changed and implemented by the Property Tax Tracker (Schedule 140) are attached herewith in electronic format. In accordance with the Order the enclosed electric tariff filing is based on removing \$41,550,999 from base rates related to property taxes included in those base rates. This is the amount of property taxes that was included in electric base rates in the Company's last general rate case, Docket Nos. UE-111048 and UG-111049 (consolidated). The work papers also demonstrate the derivation of the proposed rates for Schedule 140 which proposes to recover the amount removed from base rates in order to offset the cost of property taxes for 2012. The net effect of the changes to base rates and the new Schedule 140, Property Tax Tracker rates is zero.
