## 1 FOREWORD

## Shipping Activity in Washington State

The Puget Sound Pilots handled a total of 8,177 vessel moves with 8,315 assignments in 2007, down slightly from the previous year. Based on an average of 53.7 full-time pilots, each pilot handled an average of 154.8 assignments, down slightly from 2006.

The Grays Harbor Pilots handled a total of 107 pilotage assignments in 2007, up 30.4% from the previous year. The increase in ship call activity can be attributed to the newly completed bio-diesel processing plant which opened mid-2007. The Port of Grays Harbor employed two full-time pilots.

## 2007 Tariff Hearings

There was no joint proposal offered by Polar Tankers, Pacific Merchant Shipping Association and the Puget Sound Pilots. Pilots asked for a 14% tariff increase. Industry proposed 0% increase, saying that the previous two years' increases would still produce an increase to pilot income for the next tariff year. The Board approved a 5% increase in the tariff for the Puget Sound District and set no Target Net Income or Business Expense allowance. The new tariff increased the Annual Earnings for Puget Sound Pilots from \$314,627 in 2006 to \$411,398 in 2007, after deducting for pilot organization expenses. The number of pilots set by the board as of the end of the year is 57.

The identical proposals from the Pacific Merchant Shipping Association and the Port of Grays Harbor increased the Grays Harbor tariff by 3%, as follows: Increase all draft and tonnage charges, boarding fees, harbor shifts, outlying port travel and bridge transit fees by 3% and increase the pension charge to \$174 per assignment.

### **District Pilot Examinations**

No examinations were given in either district in 2007. Four applicants from the November 2005 examination remain on the waiting list to begin training in the Puget Sound district.

### New Legislation and Regulations

RCW 88.16.118 was amended to extend liability limitations to pilot trainees and pilots employed by a port district.
