

Bob:

Here are the topics suggested by US Cellular Corp. and Rural Cellular Corp.

Whether the plan provided by RCC and USCC in their joint comments provides the WUTC with more useful data than the FCC's five year plan.

Separating out regulations intended to protect consumers from monopoly business practices from those required to advance universal service and those preempted by federal law.

Public interest criteria for new designations - balancing the benefits of health/safety, economic development, new competitive services, advancement of universal service and consumer choice against identifiable harms to consumers as a result of designation.

Whether to adopt the FCC's annual reporting criteria.

Controlling growth of the fund - can WUTC provide incentive for all ETCs to invest support efficiently?
