Re: Docket UE-220405
2022 Renewable Energy Target Final Compliance Report
WAC-Required Report: WAC 480-109-210(6)

Dear Executive Director Killip:

Puget Sound Energy (PSE or Company) submits for filing its 2022 Renewable Energy Target Final Compliance Report (Report). In Order 01 in the above-referenced docket, the Washington Utilities and Transportation Commission required PSE to file a second compliance report no later than June 1, 2024, that provides information necessary to determine whether the Company met the January 1, 2022 Renewable Portfolio Standard (RPS) approved target of 3,084,363 MWh, including the specific megawatt-hours and/or renewable energy credits (RECs) used to meet the target. Order 01 also required PSE to provide details about which certificates were used for its voluntary renewable energy programs in 2022.

Attachment 1, columns D-F, is a summary of PSE's compliance with WAC 480-109-210(6) and RCW 19.285.040 and includes apprenticeship credits and distributed generation (DG) multipliers. Attachment 2 is a listing of certificates retired for 2022 RPS compliance which does not include apprenticeship credits or DG multipliers. Attachment 3 is a listing of RECs used for PSE's voluntary renewable energy programs in 2022.
